Prayer of the 7 Galactic Directions

From the East. House of Light.
May wisdom dawn in us so we may see all things in clarity.

From the North. House of Night.
May wisdom ripen in us so we may know all from within.

From the West. House of Transformation.
May wisdom be transformed into right action, so we may do what must be done.

From the South. House of the Eternal Sun.
May right action reap the harvest so we may enjoy the fruits of planetary being.

From Above. House of Heaven. Where Star People and Ancestors Gather
May their blessings come to us now.

From Below. House of Earth.
May the heartbeat of her crystal core bless us with harmonies to end all war.

From the Center. Galactic Source. Which is Everywhere at Once.
May everything be known as the light of mutual love.

Ah Yum, Hunab Ku, Evam Maya E Ma Ho!
Ah Yum, Hunab Ku, Evam Maya E Ma Ho!
Ah Yum, Hunab Ku, Evam Maya E Ma Ho!

All Hail the Harmony of Mind and Nature!

INTRODUCTION

SOLAR RING OF THE
WHITE PLANETARY WIZARD

Year of Manifestation

The quality of our experience is in accordance with the frequency of time that we are attuned to. This White Planetary Wizard year marks the third year of a 4-year process of holographic alignment (2013-2017). This is the year to embody a new galactic operating system and heal the planetary grid.

Like the Earth, the human body is ultimately a cosmic radio station, receiving and transmitting information to and from the core channel at the center of the Earth. Human consciousness is a bridge for the re-harmonization of the planetary crystalline grid, receiving and implementing instructions from the Hunab Ku at the Galactic Center. Through the system of overtones and vibrational frequencies, we can directly attune to and resonate with all that exists.

Everything is vibration. Energy is a form of vibration, often pictured as a wave. The form of a wave can be changed by adjusting the vibrational properties of the wave. The Law of Time defines the human as both a number (vibration), and an archetype (based on number). The human body is ultimately a time travel vehicle. It is a timeship. We are in the process of mutation, a DNA upgrade in an energetic upgrade of the entire cosmos.

Each day of the 13 Moons we activate a plasma. When we "charge" the plasma it radiates out and helps to create a new holonomic vibratory structure. When we talk about "higher" dimensions, we are talking about dimensions that are vibrating faster and/or at higher frequencies. Phenomena such as UFOs, crop circles and what we call "paranormal" occurrences throughout history are holographic bleed-throughs from other dimensions into the hologram of this dimension to remind us of the vaster reality of cosmic time.

The access of higher dimensions is dependent on us releasing old identities, habits and belief systems. Only then can we find the secret keys that access hidden gates that lead to the center of the Living Earth, solar system, galaxy and dimensions. We evolve through receptivity to new instructions which are learned and then embodied as a new galactic language.

Every discipline has its own language. The codes contained in this synchronometer demonstrate a system of mathematical signals to read the invisible language of time. Through meditating on numbers, we can come to know the process of the evolution of space through time.

Electric Moon 9, Kin 178, concludes the fourth lunar eclipse of a tetrad that began in the Yellow Galactic Seedyear (2013). The sum kin equivalent of these four lunar eclipses is 169 (Kin 167 + 83 + 1 + 178 = 429 - 260 = 169). Kin 169 (13 x 13) is Red Cosmic Moon signifying the 13 Moon calendar. This tetrad eclipse configuration will not occur again until 2032.

We are also in the tenth position of the 13-year Red Moon wavespell that began in 2006 with the Red Magnetic Moon year. This means that during the first six years of the New Beam (from Yellow Galactic Seed year/2013-2014 to the Red Cosmic Moon year/2018-2019), we will have been transitioning out of energy systems that were set in motion in 2006. By the Magnetic Wizard year 2019-2020, we will have completed the seven years of anchoring galactic culture and move into the next phase: the 13-year cycle of creating the noospheric timeship.

The synchronic codes are a bridge from our conditioned mind to the noospheric mind. This noospheric mind is interactive and knowable through self-reflective consciousness. It is the planet that has the mind, not us. To realize the noospheric mind is to enter Supreme Unity Consciousness.

"Hello Earthling! You are a star traveler. You have come a long way to be on this planet at this specific time. You are here to raise the frequency of yourself and of your fellow travelers on this Earth. You are here to embody galactic consciousness. The Almanac (Synchronometer) you hold in your hands is a tool and a gift from us, your star brothers and sisters. It is a tool to help you remember who you are, where you have come from and your unique mission on this planet. Welcome to a new stage in the evolution of Human Consciousness! My name is "Sirius B52 - Element 113" and I will be assiting your time-travelling adventure experience throughout this almanac. My role is to help you navigate the New Time with brief reminders and lessons on The Galactic Maya Science of Time: The Synchronic Order and the Law of Time. Time is the highest law... The Law of Time has functioned since the beginning of time. It has been previously unconscious - but is now being made conscious through YOU! Let's go!"

1. THE LUNAR CYCLE

The Sacred Count of 13

The 13-Moon calendar reflects the annual human biological rhythm of the woman's 28 day fertility cycles.

Indigenous people also share the knowledge of the thirteen moons on a turtle's back. As children some are taught to examine the segments on the back of every turtle. There are thirteen large segments which represent the thirteen moons which make up the lunar year.

By counting the smaller segments around the lower edge of the shell, you will find there are 28, which represents the 28 days between new moons.

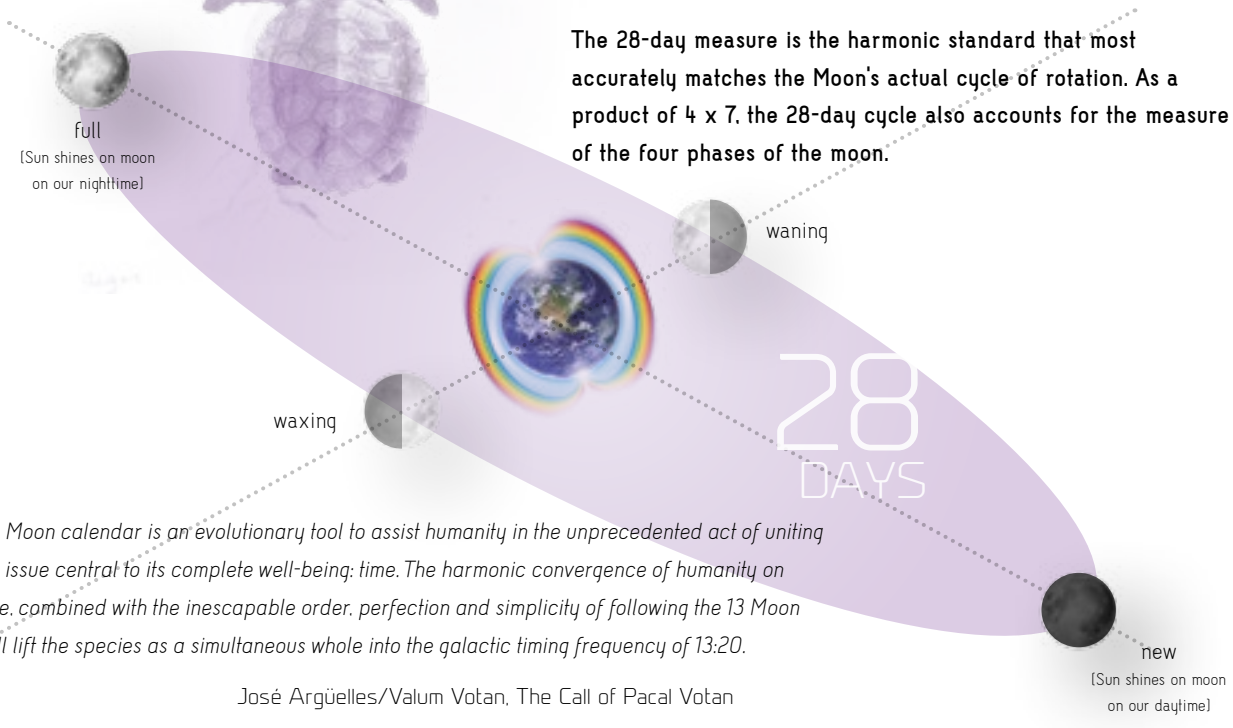
Why 13 Moons?

The 13 Moon calendar is based on the 28-day harmonic lunar cycle. This is the amount of time it takes the Moon to orbit the Earth, when seen from outer space. During this time it turns on its axis but once, which is why we are always seeing the same side of the Moon. **The Moon turns 13 times on its axis in the time the Earth rotates once around the Sun**, hence 13 Moons = one year.

Commonly used lunar phase calendars are actually measures of the Moon's *synodic cycle*, from new moon to new moon **as seen from Earth,** which is a cycle of ***29.5 days***, or twelve lunar months for a lunar year of 354 days.

The other lunar measure **as seen from Earth,** is the *sidereal cycle*, the measure of the time it takes the Moon to return to the same place in the sky. The sidereal measure is ***27.3 days***. By comparison there are 13 cycles of the sidereal measure to 12 of the synodic.

The 28-day measure is the harmonic standard that most accurately matches the Moon's actual cycle of rotation. As a product of 4 x 7, the 28-day cycle also accounts for the measure of the four phases of the moon.



The Thirteen Moon calendar is an evolutionary tool to assist humanity in the unprecedented act of uniting itself on one issue central to its complete well-being: time. The harmonic convergence of humanity on this one issue, combined with the inescapable order, perfection and simplicity of following the 13 Moon calendar will lift the species as a simultaneous whole into the galactic timing frequency of 13:20.

José Argüelles/Valum Votan, The Call of Pacal Votan

Dolphins and whales are the transmitters of the New Beam which carries with it the traits of peace, love, synchronicity, and unity consciousness. Science has discovered that the dolphins measure "time" with 13 sets of 28 grooves along their teeth, which are further arranged in a configuration that functions as an antenna for sound and communication.

Stephanie South/Red Queen, 13:20: Frequency : Shift

The 13 Moon 28-day synchronometer is a harmonic timespace matrix. It takes the moon 28 days to orbit the Earth; it makes this orbit 13 times each year. **The standard of measure is the 28-day cycle, called a MOON**, because it is the *median between the 29.5-day synodic cycle of the moon (new moon to new moon) and the 27.3-day sidereal cycle of the moon*. Hence, it is a measure of Earth's solar orbit using the 28-day lunar standard. This creates a perfect orbital measure of 13 moons of 28 days, totaling 364 days, or **52 perfect weeks of 7 days** each. Because the 365th day is no day of the moon or week at all, it is known as the "**DAY OUT OF TIME**" - **a day to celebrate peace through culture and time is art!**

The 13 Moon, 28-day calendar is a new standard of time for all people everywhere who desire a genuinely new world. If the calendar and time we follow is irregular, artificial and mechanized, so becomes our mind. As is our mind, so our world becomes, as is our world today: Irregular, artificial and mechanized. But if the calendar we follow is harmonic and in tune with natural cycles, so also will our mind become, and so we may return to a way of life more spiritual and in harmony with nature.

The 13 Moon calendar synchronizes solar and galactic cycles on July 26, correlating with the heliacal rising of the star Sirius. Each of the 13 moons has a power, action, and quality which define an annual program to synchronize our consciousness with the galactic cycles.

As a **perfect measure of cosmic time**, this calendar is actually a **SYNCHRONOMETER**, **an instrument for measuring synchronicity**. Followed daily, it gives us a new lens in which to perceive events. **IN THE NEW TIME, SYNCHRONICITY IS THE NORM!**

2. THE SOLAR CYCLE

The 4 Seasons, The Solstices & Equinoxes

As shown in the graphic, the Sun rotates at its tropics every 28 days!

Scientists calculate the rotation time of the sun as follows:

"If it takes 28 hours for a sun spot to shift 15 degrees, it will take [360/15] = 24 times longer for the spot to shift a full rotation around the sun. That equals 28 hours x 24 = 28 DAYS.

The Extra Credit project is to realize from enough data that the sun takes longer than 28 hours to rotate at the poles when you track sunspots at the higher latitudes, and it takes slightly less than 28 days if you track spots traveling along the equator. In fact, near the poles the time is 30 days and near the equator it is near 25 days.

The sun can do this because it is not a solid body. It is made of gas, and this gas rotates 'differentially' because there is no rigidity to keep everything in step."

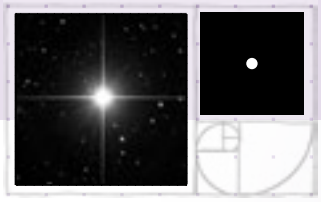
The orbit of the Earth around the Sun is marked by **four articulations - two solstices and two equinoxes**. These are approximately **91 days** apart - **4 x 91 = 364**. The reason for these four points is that not only does the Earth rotate on its axis once every 24 hours - **365** times during a single orbit - but it also has a wobble that causes it to tilt back and forth on its axis once every 365-day cycle. This tilt is a measure of 23.5 degrees (note numerical approximation to **23-year solar sunspot cycle**).

The **two extreme points of the 23.5-degree tilt are called solstices**, when the Sun is at a maximum distance from the equator. At winter solstice in the Northern Hemisphere, the North Pole is tilted at its farthest point from the Sun making the nights longer than the days. At this very same moment it is summer solstice in the Southern Hemisphere, where the South Pole is tilted closest to the Sun, making the days longer than the nights. At summer solstice in the Northern Hemisphere, this situation is reversed, and it is winter solstice in the Southern Hemisphere.

The equinoxes mark the two points when the tilt evens out on its return from either pole and the day and night are perfectly equal everywhere on the planet. However, when it is spring equinox in the North and the days are growing longer, it is autumn equinox in the South, and when it is spring equinox in the South, it is autumn equinox in the North. **Ceremonies or festivals at the solstices and equinoxes are powerful in cultivating planetary consciousness.**



3. THE SOLAR-GALACTIC CYCLE

The Sirian 52-Year Cosmic Marker

Why a 52 Year Cycle?

52 YEARS

In the pre-conquest days of ancient Mexico, the 52-year cycle was known as the "calendar round", and the Aztecs held a New Fire Ceremony every 52 years. This cycle is one of the key programs of the ancient Mayan time science. The Knowledge Book states that there is a 52-year rotation cycle of Sirius B around Sirius A. This explains why this cycle was regarded with such significance among the Maya and ancient Mexicans in general. (Modern astronomers calculate the cycle of Sirius B around Sirius A at less than 51 years, but in their Earth-based calculations they have not taken into account the effects of certiain deviations not observable on their instruments of measure.

SIRIUS B

SIRIUS A

The annual heliacal rising of Sirius refers to when Sirius rises again into visibility at 19.5° North Earth latitude after being hidden by the Sun's light for around 70 days. Heliacal means rising with the Sun (Helios = Sun).

Now, in the last stage of the final era with the Discovery of the Law of Time and its most practical application - the 13-moon/28-day calendar (synchronometer) - the Sirian 52-year cycle has returned. The 13-moon calendar of the Law of Time runs precisely on a program of 52-year solar-galactic cycles and is correlated with the traditional date of the heliacal rising of Sirius, July 26.

As a Sirian knowledge program for the closing of the cycle and the regeneration of the human race in the Noosphere, the Law of Time re-establishes the cosmic mental frequency for the planet and the regenerative human.

The 13-moon/28-day calendar establishes the 52-year Sirian cycle because of the perfect meshing of the 365-day third-dimensional solar cycle with the 260-day fourth-dimensional galactic cycle (Tzolkin) precisely every 52 years. This program establishes the matrix of the synchronic order, the cosmic field patterns of synchronicity and hence, these calendrical instruments may also be known as noosphere time measures.

- José Argüelles, Manifesto for the Noosphere

"Sirius is known as the sun behind the sun that affects our own Sun. It transmits energy to our solar system through electromagnetic lines of force. This emanates the different rays and councils of hierarchy that govern the motion, forces and movements of the different planets."

4. NEW TIME & THE LAW OF TIME

Understanding Time as a Frequency

Everything is in a state of synchronicity. In fact, that's what the "Law of Time" refers to as the "synchronic order." Time is the fourth dimension. The synchronic order is to the fourth dimension of time what gravity is to the third dimension of space. That which holds everything together. And we're also in the fourth dimension and the third dimension this very moment. The fourth dimension is greater than and encompasses the third dimension. The third dimension is physical - it is space. We can touch it, see it, and we can feel what it is. It has texture, color, and sound, whatever you want. But show me where time is. It's not on your clock. You can't touch time. You can't see time. Maybe with an inner sense you can feel time. So, time is of the mind, just like third dimension space is of matter. Time is of the mind. That's where time exists. - José Argüelles / Valum Votan

The discovery of the Law of Time is the revelation of **a scientific truth so fundamental and which has eluded human science for so long, that its presentation totally subsumes and overturns the old science in its entirety.** Its conclusions are so profound, its consequences for the future of human society are so urgent and radical, that it is mandatory that the discovery of the Law of Time be immediately brought to the attention of all world leaders.

Time is the fourth dimension. Time is a frequency. One common timing frequency governs and shapes all third-dimensional phenomena. ***This frequency is an undeviating ratio, mathematically expressed as 13:20***. The Law of Time also takes the form of an equation: **T[E] = Art**.

» The Law of Time is a universal law and principle. It states that **time is the universal factor of synchronization**.

» The Law of Time distinguishes between a **Natural Timing Frequency** that governs the universal order, and an **artificial timing frequency** which sets modern human civilization apart from the rest of its environment, the biosphere.

» The effect of basing a civilization on **artificial timing factors** - an **irregular calendar** and the **mechanical clock** - has resulted in the creation of an artificial global mantle, **the technosphere**. By consuming natural resources faster than they can be replaced and creating more waste than can be eliminated, the technosphere operates at the expense of **the biosphere**. Hence, the current global crisis.

» The Law of Time affirms that all of the planetary upheavals and social chaos that we are experiencing today are directly related to giving precedence to human laws and machine technology, rather than Divine Order and Natural Law. This is due to living a collective misperception of time known as the 12:60 frequency. This refers to the 12 month cycle of the irregular Gregorian calendar paced by the 60 minute clock.

T[E] = ART. *[E]nergy factored by T[ime] [13:20 frequency] = Art, where Art is the form, quality and process distinguishing any third-dimensional phenomenon, [E]nergy, be it a rock, a flower, a star, or a human being. The Law of Time affirms that the quality of beauty in nature is supreme; it is a scientific and mathematical function of fourth-dimensional time.*

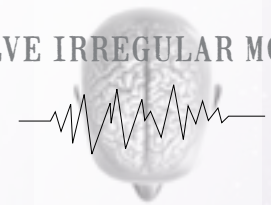
Timeship Earth

Earth is a timeship, voyaging through galactic time. Every single one of us, whether we are aware of it or not, is a galactic kin upon this timeship. Up until now we might have thought it was spaceship Earth. But that is only because we were in the wrong time, we didn't know what time really was!

The meaning of this time lies in our waking up to the actual nature of time. Once this occurs we will see that time is the fourth dimension, that Earth is not a spaceship but a timeship, and that the purpose of operating in the 13:20 frequency of galactic time is to transform the planet into a work of art. We are aboard the timeship to learn and practice the planetary art of galactic time. The first stage of this is the rainbow bridge.



12:60

13:20

In the 13:20 frequency, **TIME IS ART**. In the 13:20 frequency, spiritual cultivation is the number one goal. In the 13:20 frequency synchronicity is the norm. Everything is always in perfect order. Everything is always on time. Everything is always new. Each day is a cosmic unfoldment.

*"The essence of the discovery of the timing frequency is a simple one. The **12:60** refers to an unconsciously accepted order of time that is artificial in nature. Twelve refers to the codification of daily time into an irregular and arbitrary calendar of 12 months. Originated in Babylonia, the final historical form of the 12-month system was instituted in 1583 by the Vatican as the Gregorian calendar, which is now accepted as the standard in use world-wide. Sixty refers to the equally arbitrary division of the day into 24 (2 x 12) hours of 60 minutes each. **The result of the 12:60 is the creation of a timing frequency whose mental field of consciousness is dominated by mechanization and a third-dimensional science of space-matter**. Unconscious acceptance of this 12:60 timing frequency is the single most contributing factor to the problem of human alienation from nature."*

5. THE WHEELS OF TIME

The Governing Cycles of the Synchronic Order

Wheels within wheels

The 13 Moon/28 day synchronometer is the perfect instrument for synchronizing the 52-year cycles, because it synchronizes perfectly with the 260-day fourth-dimensional timing gauge to create a 52-year permutation cycle. 73 x 260 days = 52 x 365 days = 18,980 days = 52 years = one Sirius B rotation around Sirius A.

The 52-year Solar-Galactic cycle is actually the Sirian cycle . This has many implications, as it sheds light on why the Galactic Maya introduced the 52-year cycle as a means for attuning the human consciousness to the higher vibrational frequency and channel of the Sirius Council.

18.980 DAYS

SIRIUS B

*When we coordinate the **13 Moon/28-day pattern** plus the 365th day (Day out of Time) with the 260-day pattern, we arrive at a cycle of 18,980 days, or **52 years**, (73 of the 260-day Tzolkin spins) Also note that the **52-year solar-galactic cycle** corresponds to the orbit of **Sirius B** around **Sirius A.***

SIRIUS A

The July 26 synchronization date of the new calendar, commemorated for a time in the Chilam Balaam tradition, was revealed as the natural point to begin the new dispensation, because in early times it registered the day when Sirius was conjunct with the rising sun. In the Dreamspell, the 52- year cycles are also called Solar-Galactic cycles. Now, that signification has more meaning because it registers precisely the orbit of Sirius B around Sirius A in synchronization with the solar-lunar cycle of the 13 Moon/28-day synchronometer. By following the new 13 Moon/28-day measure we are elevating our minds and bodies to be in solar-galactic synchronization with the consciousness of the Sirius Council as it is simultaneously registered in the orbits of both Sirius B and our planet.

From all of this, we conclude, among other things, that 52 is the number of the Sirius code - which is also why there are 52 weeks in the year. The 52 weeks (heptads) are a fractal of the 52-year cycle. This, of course, also references the importance of the number 7 in relation to the 52, as the week is a 7-day cycle, and the 7 originally referred to the 7 days of creation. ***52 x 7 = 364 + 1 = 365 x 52 = 1 orbit of Sirius B****. As we know, in the new calendar the 365 th day of the year is the "day out of time" no day of the week or month at all, and, therefore, the perfect day to celebrate love, tolerance universal forgiveness and the principle of time is art. Since this day always falls on July 25, we may also say it is the day to celebrate the dawning of fourth-dimensional Sirian consciousness on Earth. This is preliminary to entry into cosmic civilization set to occur after 2013.*

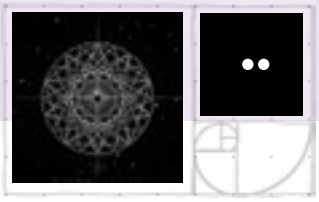
52 YEARS

As shown in the table, each year of the 13 Moon calendar is coded by one of four year-bearers: Wizard, Storm, Seed and Moon. The year always starts on 26 July (Magnetic 1) and completes on 24 July (Cosmic 28), with the Day Out of Time being 25 July. **NS1** indicates **New Siriuc Cycle 1.** The years are numbered NS1.0 - NS1.51 for a total of 52 years. The count begins in the upper-left corner with the year of the White Galactic Wizard (Kin 34), numbered NS1.0. This indicates that 0 years have completed since the start of New Sirius Cycle 1, hence NS1.0. The last year of New Sirius Cycle 1 is the year of the Red Resonant Moon (Kin 189), numbered NS1.51, after which will begin New Sirius Cycle 2 (NS2) (To learn more about the New Sirius Cycle see *Book of the Cube.)*



7. THE MATHEMATICS OF TIME

The Governing Cycles of the Synchronic Order

At its source, **the synchronic order is pure mathematics**: the mathematics of the fourth dimension. Number precedes consciousness. Number is supramental - beyond mind. Number is what gives mind its sense of **order, harmony and organization**. The synchronic order is based on a set of fourth-dimensional mathematical constants. The **13:7 Wheel of the Law of Time** (see page 296) demonstrates the complete mathematical principles of fourth-dimensional time.

The vastness of the universal order of time is knowable through simple mathematical codes and laws, the most basic being the ratio formulation: **4 : 7 : : 7 : 13** . Coded within this formulation is the **ratio of the universal frequency of synchronization: 13:20**.

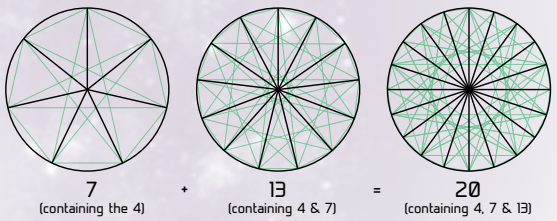
All numbers are composites and/or factors of each other. The primal numbers of time are 4, 7, 13 and 20. The primal numbers of space are 4, 5 and 9. The frequency of the Law of Time is 13:20 - between the 13 and 20 is the seven. Between 3 and 7 is the four. Herein lies the form constant that establishes the ratio **4 : 7 : : 7 : 13** . Four is the root, seven is the stem and thirteen is the fruit. This is the primal ratio and cosmology of the Law of Time.

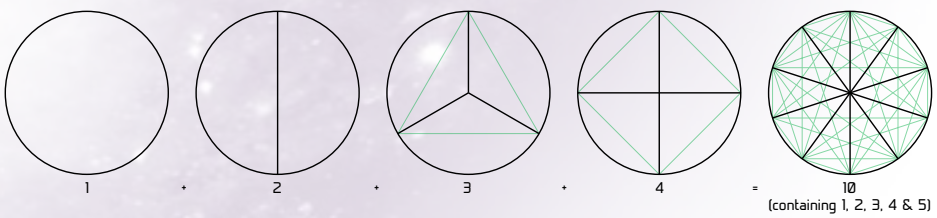
4:7::7:13

In the construct to the right, there are three units on either side of the seven. This is the underlying law of three. 3 + 3 = 6. Six is the basis of the hexagisimal order.

3 + 1 + 3 = 7
6 + 1 + 6 = 13

Parallel constructs can be derived from doubling the law of three. So we have the 7, 13 and 20. The point is that the **fundamental formulation of the numbers and patterns in time** is contained in this simple and elegant formulation.





Symbolic structures are derived from the primary numbers of time: 4, 7, 13, and 20. The number 20 (4 x 5) actually incorporates a fifth force of space. In other words, the 20 is a function of time (7 and 13). It is also a function of space (4 x 5). When we multiply the space numbers 4 x 5, we arrive at the 20 - a prime number of time. Therefore 20 is the magic number that comprises both space and time. This is why twenty is known as the number of totality and 20 squared is 400, the pure fractal frequency of totality.

8. THE NOOSPHERE

The Next Stage in the Evolution of Human Consciousness

"We must enlarge our approach to encompass the formation taking place before our eyes - of a particular biological entity such as has never existed on earth-the growth, outside and above the biosphere, of an added planetary layer, an envelope of thinking substance, to which, for the sake of convenience and symmetry, I have given the name of the Noosphere."

-Pierre Teilhard de Chardin, *The Future of Man*

"You are not separate from me, though you may think that you are. Your mind and mine, the mind of the Earth, are one and the same mind. This one mind is called the Noosphere - wrapped like an invisible mantle over the whole of my body, it penetrates every living thing, endowing each with a ray from the spectrum of living consciousness that spreads from the center of the galaxy to our sun, to me and to all of you who dwell on my surface. For those who have eyes to see, ears to hear, and hearts that know from within, the time has come for you to hear my manifesto for the Noosphere. Listen, and recite with me: I am one with the Earth. The Earth and my self are one mind."

-José Arguelles/Valum Votan, Manifesto for the Noosphere

What is the Noosphere?

The noosphere is the **planetary sphere of mind** or **thinking layer of planet Earth**. To grasp the idea of the noosphere we must elevate our consciousness and open ourselves to the most general, elemental and cosmic principles of life on Earth.

As the mental sheathe of the planet, the noosphere characterizes mind and consciousness as a unitary phenomenon. This means that the quality and nature of our individual and collective thoughts directly effects the noosphere and creates the quality of our environment - the biosphere.

The noosphere represents the **breakthrough to a new consciousness, a new time and a new reality arising from the biospheric crisis**. This is known as the **biosphere-noosphere transition**.

Just as the biosphere is the unity of all of life and its support system, the noosphere is the unity of all mind and its thinking layers. In this way the noosphere can be understood as the sum of the mental interactions of all life. Within the noosphere exists the evolutionary control panels, known as the psi bank, the memory storage and retrieval system for all the mental programs on Earth.

As the next stage of evolution of the terrestrial biosphere, the noosphere signifies the advent of a qualitative/dimensional shift - the passage from one state to another. This perspective of the noosphere, as an evolutionary event, has been scientifically anticipated by Pierre Teilhard de Chardin, the noted French paleontologist, as well as his colleague (with whom he jointly coined the word noosphere in 1926), Russian geochemist, Vladimir Vernadsky (see *The Theory and History of the Noosphere).*

The Internet is the third-dimensional reflection of the noosphere, a form of proto-telepathy. When the noosphere is fully activated, then the human species will experience telepathy as a collective norm.

9. PEACE THROUGH CULTURE

Time-Keepers = Peace-Keepers

"Where there is peace, there is culture. Where there is culture, there is peace."

-Nicholas Roerich, 1874-1947

How can a New Time bring Peace on Earth?

A calendar change provides the perfect opportunity for the human race to take a much needed pause, lay down its arms, and rethink its priorities - while there is still time.

The Thirteen Moon calendar Change Peace Plan is a people's initiative that recognizes the need to unify our species based on a new knowledge of time and a new vision of the cosmos.

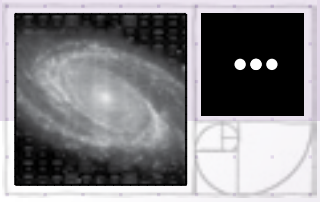
The cause of this peace plan is furthered by the promotion of the Banner of Peace and the principle of peace through culture

The Banner of Peace is a powerful universal symbol which was adapted by the visionary artist Nicholas Roerich to serve as an emblem for the desire of human culture to rise above war. This flag has been flown globally, as a sign of peace and culture, since the 1930's.

The Roerich Pact and Banner of Peace is an international treaty signed by India, the Baltic States, and 22 nations of the Americas including the United States. The Roerich Peace Pact established an international agreement allowing any nation to protect its cultural or artistic heritage with a symbolic banner, the Banner of Peace. Signed in 1935, this treaty is international law today.

Written with the assistance of international experts and lawyers, the Banner of Peace was praised by many notable figures during its signing including Albert Einstein, George Bernard Shaw, and H.G. Wells. The Pact states, "educational, artistic, and scientific institutions... shall be protected and respected by the belligerents... without any discrimination as to the state allegiance of any particular institution or mission... these missions may display a distinctive flag (the Banner of Peace)... which will entitle them to special protection and respect..." Thus any site of cultural activity around the world can fly the Banner of Peace to declare itself neutral, independent of combatant forces, and protected by international treaty.

The distinctive banner has three red circles surrounded by a larger red circle on a white banner. The banner is a deep red or magenta color to symbolize the color of our one blood, which is the same for all peoples. The top circle represents spirituality and encompasses the truth of all religions, that we can all unite regardless of our distinct beliefs. The two circles on the bottom represent art and science. The circle that surrounds the three spheres represents culture, the unity of art, science, and spirituality.



10. YOUR GALACTIC SIGNATURE

Passport to the Noosphere

By playing the role of your Galactic Signature (Archetype), you allow yourself - your mind, body and spirit - to vibrate to that particular frequency and you broadcast it out to everyone around you. This is your gift to the world!

YOUR GALACTIC PASSPORT: Your galactic signature is your code name for your mythic or fourth-dimensional self. Each galactic signature is a gateway or portal that can be used to discover different aspects of your being. Fill in below the basic information on your Galactic Signature here and find complete documentation on page 301. Have fun!

How to Enter the Synchronic Order

The best way to enter the synchronic order is by "decoding" yourself - finding your galactic signature. Your galactic signature is the gateway into the fourth-dimensional synchronic order. If you do not yet know your galactic signature you can obtain it following the instuctions on next page.

GETTING YOUR 13-MOON BIRTHDATE:

1. Find your birthday on the 13 Moon calendar. For example, if your birthday is October 13, look for the day on the calendar that is marked "10-13". Note that October 13 is the 24th day of the Electric Moon. Electric Moon is the third moon of the 13 moons. You can write this date as 3.24.

2. Note the Moon, day, and day of the week you were born. In the 13 Moon calendar these remain constant every year. For example, if you were born July 26, 1961, this translates to **Magnetic Moon day 1**. The Magnetic Moon is the first of the 13 Moons with the key energy of Unity. Also **note in which week and on which day of the week you were born** (see 28-day Moon on the back cover of this Almanac). Day 1 is in the first week, which is coded by the color Red, signifying Initiation. It is the first day of the week: Dali ⊕. Finally notice that each Moon has a totem animal associated with it.

3. Note these on your galactic passport, memorize it and celebrate your Solar Return every 364+1 days! This is all you need to know to begin following this basic 13 Moon Cycle! Every moon is exactly 28 days - the first day of the moon is always the first day of the week, the last day of the moon is always the last day of the week! This consistent regularity is what makes the **13 Moon calendar/synchronometer a harmonic timespace matrix**. This is just the tip of the iceberg of fourth-dimensional time...

The day you were born on the 13 Moon calendar is coded by your Galactic Signature. Your Galactic Signature is one of the 260 possibilities encoded in the Tzolkin/Harmonic Module. The key is to meditate all of the overlays of the two cycles. The various combinations unlock unique aspects of the mind, opening new portals of reality.

Finding Your Galactic Signature

The day you were born on the 13 Moon calendar is coded by your galactic signature: your password/passport into fourth-dimensional time. Your galactic signature is one of the 260 different possibilities shown on the Tzolkin/ Harmonic Module (see page 24).

TO FIND YOUR GALACTIC SIGNATURE:

1. Write down the number next to the Year you were born from the **Year Table**.

2. Add this to the Code Number for the Month you seek from the **Month Table**.

3. Now add the number of the **Day of the month that you were born**. For example, if you were born on November 28, add 28. Note: February 29/Leap Day is known as 0.0.Hunab Ku - a day of pure timelessness. For Feb 29 Birthdays: If you were born on February 29 before noon local time, use February 28. If you were born after noon local time, use March 1 to find your galactic signature.

4. The **total of these three numbers is the kin number of your galactic signature**! (if the number you have is greater than 260 you need to subtract 260).

5. Look at the Tzolkin on page 24 of this almanac and **find your kin number**. This is your galactic signature. Example. Kin 9 is the Red Moon seal and the Solar tone ⁘ (tone 9). This is "Red Solar Moon" or "9 Moon".

6. Note it on your **Noospheric Passport**, memorize it and celebrate your Galactic Birthday/Return every 260 days!

7. Locate your KIN number in this Almanac to find your affirmation code. Also turn to page 268 to find your Destiny Oracle and fill in your complete **Star Traveler's Documentation** on page 301.

Every year you are one of the four (4) solar seals of your Earth Family (see page 27) and one of the thirteen (13) galactic tones. This is how the 13 Moon calendar runs in 52-year cycles and is the reason that your 52nd birthday will be the same Kin as your birth Kin.

Congratulations!

20	40	60	80	100	120	140	160	180	200	220	240	260

This is the **Harmonic Module**, called **Tzolkin** by the Maya which means "sacred count". This is a perfect 13:20 matrix (13 x 20 = 260). If you've already learned about the Law of Time then you know that this is the perfect cycle of the **13:20 frequency of synchronization**.

The Tzolkin is read from top to bottom, left to right. Start in the upper left-hand corner and count downward until you reach 20, then 21 will be at the top of the next column, and so on.

Each day is a combination of one of 20 symbols **(Solar Seals)** and 13 numbers **(Galactic Tones)**. This makes a total of 260 (20 x 13) combinations of seals and tones.

The 260-day cycle is the rough measure of the **human gestation period**, and is also a perfect fractal of the **galactic 26,000-year cycle** which we completed on December 21, 2012, which is why it is also called the **Galactic Spin**.

This 260-day cycle proceeds daily, every day for every 13 Moon calendar year. In combination with the 364 + 1 days of the 13 Moon calendar, a vast permutation matrix is established. This creates a **52-year cycle** - 18,980 days (365 x 52 = 260 x 73) - where no two days are the same, so that you have an ever changing pattern of moving symbols for every day!

The more you engage with and follow these cycles, the more you will understand the energies that influence everyone in daily life, every sun, every moon, every day, every instant. The seeds of this knowledge have been left by the Galactic Maya.

The key to this information existed in a template called Buk Xoc - the template of divination or permutation of the numbers 13 and 20. These numbers were first decoded by Tony Shearer and then passed on to Valum Votan (Jose Arguelles) - this is the 13:20 timing frequency.

The Law of Time is made up of primary symbolic constructs, the first being the 13 galactic tones. Each tone or numeric symbol has a unique quality that defines a wavespell of time (cycle of 13 kins or time units). The 20 solar seals or symbols describe the movement of space in time. The 13-tone wavespell coordinates the 20 units of the movement of space in time to create a pattern of 260 (13x20) different symbolic constructs, referred to as galactic signatures or Kin. . This is the primary symbolic set of the synchronic order.

Crown	—	POLAR	Sound the Chromatics
Throat	•	CARDINAL	Establish the Genesis
Heart	••	CORE	Mine the Tunnels
Solar Plexus	•••	SIGNAL	Unravel the Mystery
Root	••••	GATEWAY	Open the Portals

Find and note your solar seal on the planet holon and the human holon. **A holon refers to the holographic essence of any given form: human, planet, star, galaxy**. Now find your **EARTH FAMILY**. The four seals of your earth family recur every four years. This creates a pattern that repeats 13 times in a 52-year cycle. The Earth families code the planet holon in five horizontal rows and each family corresponds to a specific chakra.

the 7 days of the week on the human holon

In the 13 Moon Calendar the seven days of the week are the **Seven Radial Plasmas.** These plasmas correspond to **electrical fluids that are the primary building blocks of creation** (even before quarks!). These plasmas stream out from the center of the galaxy - they also are absorbed into and radiated out from the **seven chakras**. These plasmas are the basis of a **new telepathic technology,** by which we can even create the Rainbow Bridge around the Earth ... Each of the Seven Radial Plasmas has its own unique power.

So in the 13 Moon calendar every week corresponds to one of your 4 limbs and every day of the week corresponds to one of these Radial Plasmas/Chakras! Each day visualize the Plasma Seal in the chakra and chant the Solar Mantra associated with it!

13. HOW TO USE THIS ALMANAC

The Time Key to Enter 4-D

If you are new to the 13 Moon/28-day Dreamspell calendar, then it is recommended to **begin a 28-day experiment.** Simply follow each day, just like a regular calendar. Keep a daily journal as you track the days - note the shifts in your consciousness/thinking that might occur, and all the synchronicities you experience. **The more you take note of the everyday synchronicities, the more they will grow.** At first it requires a bit of effort to grasp, but once you learn the basics the inner shifts are palpable. In the 13 Moon calendar the days are filled with fractal patterns and symbolically coded constructs that, when engaged, open you to a whole other level of reality.

It is recommended to first familiarize yourself with the layout of this Almanac using the chart at the right. Flip through the pages to get to know how it is all laid out - you are beginning something very new! Note that the second page of the Almanac contains a complete 365-day year-at-a-glance, and that the very last page contains the 260-day Tzolkin/Harmonic Module, the table of all 260 kin. On the following pages you will find graphics illustrating the many layers of the daily codes - familiarize yourself with the 20 Solar Seals, 13 Galactic Tones, 7 Radial Plasmas, 5 Earth Families, the Human Holon, and Planet Holon.

You can begin each day by meditating on the daily affirmation (code spell), feeling into the qualities and powers of the day. Also note the Kin number of the day and locate it on the 260-day Tzolkin. To further activate the powers of each day color the Solar Seals and Radial Plasmas according to the colors shown on the following pages. Each day also corresponds to a position on the Planet. Locate the daily solar seal on the Planet Holon and plug in through the appropriate chakra of the day. Note that every radial plasma also corresponds to a chakra - feel the interactions of these two layers.

From here you can choose to track as many cycles as you wish. Keep in mind that the 365-day matrix and the 260-day matrix are the two main programs you are tracking simultaneously. Note: The 260-day cycle correlated with the 365-day cycle creates a cycle of 18,980 days or 52 years during which no two days are the same. This is called the Solar-Galactic Cycle.

It is recommended to keep a daily journal along with your Almanac to record cosmic insights and synchronicities that will occur to you. The more cycles you are able to track at once the more your continuing consciousness expands.

This Almanac includes several cycles of the synchronic order as well as the phases of the moon and the Mayan long count. The point is that any calendar or cycle can be plugged into this 13 Moon/28-day calendar template. As you will see, this is more than a calendar. It is rather a doorway into the matrix of synchronicity. For this reason, we can refer to it as a **SYNCHRONOMETER**.

Not only is each day loaded with synchronic codes to practice but each day also includes a synchronic quote to meditate on from the *Cosmic History Chronicles*.

By studying the connections and overlays you can begin to see the vast possibilities involved in interacting and working with this living matrix. The more you engage it, the more it engages you!

ANNUAL WAVESPELL

Annual Oracle Read-Out

This year we open the Third Light Gate that activates the interdimensional bridge of Timeship Earth. The White Planetary Wizard year is New Sirius Cycle 28 (1.28) and marks the third year of the Galactic Seed-Spectral Storm Seed-Storm year bundle (2013-2017), the first four-year bundle of the New Cycle.

In the annual fifth force oracle, the White Planetary Wizard corresponds with solar/prophetic Maldek and brings the enchantment of timeless receptivity. Maldek is related to the kundalini (sexual) energy. Within sexual energy lay all the codes and programs of the unconscious mind. When life-force is suppressed or displaced, a distortion occurs, which leads to aggression and war, as well as the need to dominate and control. False spirituality, Jupiter, manipulates sexual power. Through the shadow-play of forces on Saturn and Jupiter, the power of abundance became corrupted on Earth into materialism (Saturn), which maintains itself by manipulating death-fear (Mars).

In the Hunab Ku 21 galactic archetypes, Kin 114 represents Planetary Wizard, the power of timelessness as the receptivity to Universal Intelligence. All the archetypes of the Hunab Ku 21 are rooted in the Hunab Ku, the galactic core where the storehouse of the universal mind and memory resides. The Wizard is the One who knows the names, spells and enchantments that unveil and evolve the ways of galactic culture, the arts of intergalactic communication and time travel.

ANNUAL ORACLE

The annual fifth force oracle consists of: the guide kin - White Planetary Wind (GK Uranus): the essence of cosmic spirit. The analog partner - Red Planetary Serpent (GK Maldek) also known as the Serpent Initiate assisting us with the remembrance of ancient knowledge of previous world systems. The antipode power - Yellow Planetary Seed (GK Jupiter) challenging us to reclaim our divine innocence through the light of cosmic awareness. The occult partner (hidden support) - comes from the Blue Self-Existing Hand (GK Earth), the avatar who holds the cosmic knowledge of planetary accomplishment.

The yearly fifth force oracle plus the heptad gate when mapped on the Hunab Ku 21 playing board, connects heptad paths 1, 3, 4 and 16 with the following commands: 1: Being evolves sex; 3: Being evolves knowledge; 4: Sex evolves knowledge; 16: Awareness evolves timelessness. Note: The Hunab Ku 21 is the base template of the greater Telektonon interplanetary map. The 52 heptad paths connect all 21 gates. All the paths are evolutionary paths.

The layout of this oracle on the 28-day Telektonon interplanetary circuit indicates a time of internalizing intelligence: To Know. To Dare. To Will. To be Silent. The occult frequency, Self-Existing Hand, as well as the guide, Planetary Wind, are located on the third circuit: the Telektonon earth spirit speaking tube.

ORACLE KEY

The Oracle shows deeper aspects of any galactic signature or Kin. All signatures have a Support, Guide, Challenge and Hidden Power. This Key Graphic shows you which power is in which position. For example, the Guide is always shown at the top of the Oracle. To help you learn the Oracle, memorize the 20 Solar Seals and 13 Galactic Tones, and study the Oracle Board on the following page!

GUIDE SEAL
Fifth Force Outcome
Always same Tone and same Color as Destiny Seal

ANTIPODE SEAL
Challenge/ Strengthening Power
Same Tone as Destiny Seal

DESTINY SEAL
Seal of the Galactic Signature or Kin

ANALOG SEAL
Support Partner
Same Tone as Destiny Seal

OCCULT SEAL
Hidden Power
The Destiny Seal's Tone and its "perfect" Occult Seal's Tone always add up to 14.

To find Guide Seal:
If the signature has tone:

If the signature has tone:	Then the Guide Seal is:
• or ▬ or ☰	the same solar seal as destiny seal
•• or ▬▬ or ☰☰	12 seals forward from destiny seal
••• or ▬▬▬ or ☰☰☰	4 seals ahead of destiny seal
•••• or ▬▬▬▬	4 seals back from destiny seal
— or ═	8 seals ahead of destiny seal

Use this graphic to help you count forward or backward to find the Guide Seal:

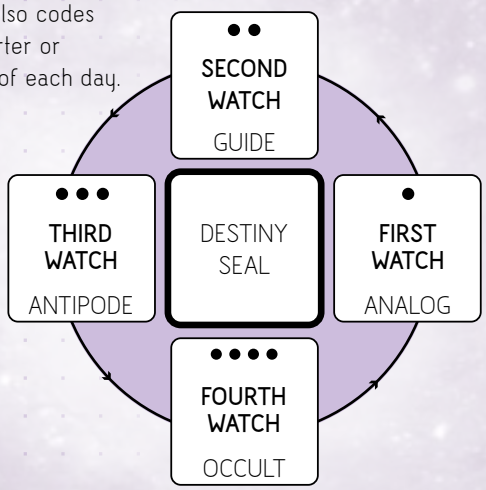
As you know, a Kin is a combination of one of **20 Solar Seals and 13 Galactic Tones**. Coded to every Kin or galactic signature is a **Fifth Force Oracle**. One metaphor to describe the fifth force oracle is that if **the galactic signature is the fourth-dimensional flower bud,** then the Fifth Force Oracle is the shimmering flower blossom.

THE FOUR DAILY WATCHES FROM THE ORACLE

Each position on the Oracle also codes one quarter or "Watch" of each day.



First Watch
• Analog (Support) Power
Midnight to Sunrise

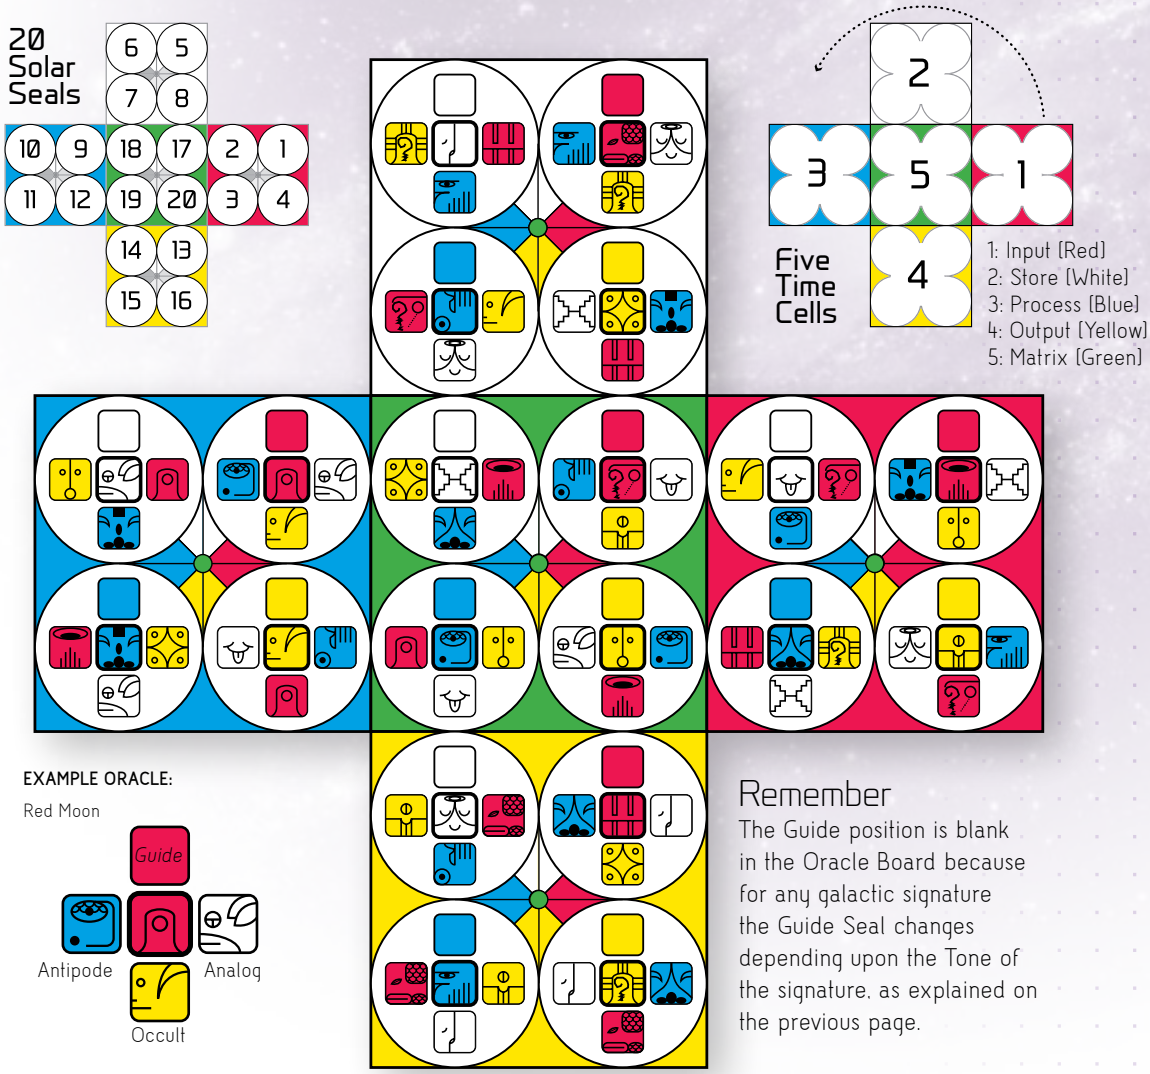
Second Watch
•• Guide Power
Sunrise to Midday

Third Watch
••• Antipode (Challenge) Power
Midday to Sunset

Fourth Watch
•••• Occult (Hidden) Power
Sunset to Midnight

THE ORACLE BOARD

Below is the "Oracle Board" - showing the Destiny Oracle for all 20 solar seals, arranged in five leaves, one leaf per Time Cell. The Seal in the center is the Destiny Seal. Note: The Guide position is blank because the Guide is determined by the galactic tone of any given kin. The Analog, Antipode and Occult remain constant for each of the 20 solar seals.



Locate the oracle that has the Seal you wish to look up at the center. Note the other three seals in the corresponding oracle positions and plug them into the fifth force oracle Key on the previous page. Meditate on their meaning. See next page for complete oracle read-outs.

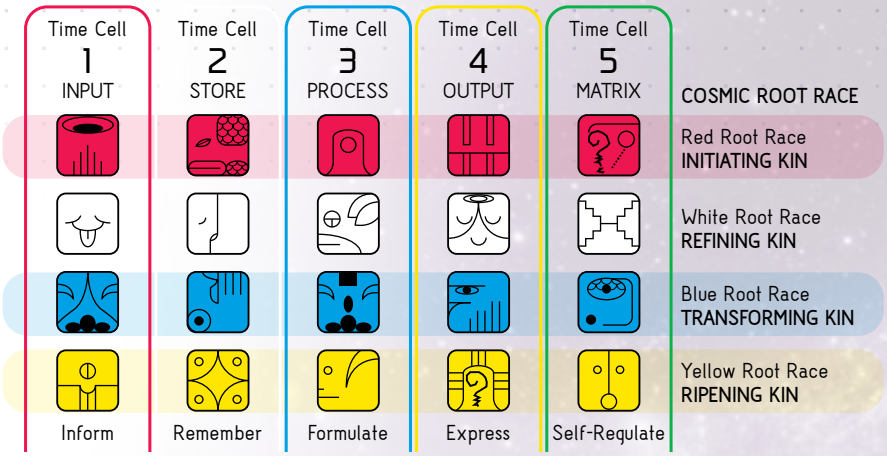
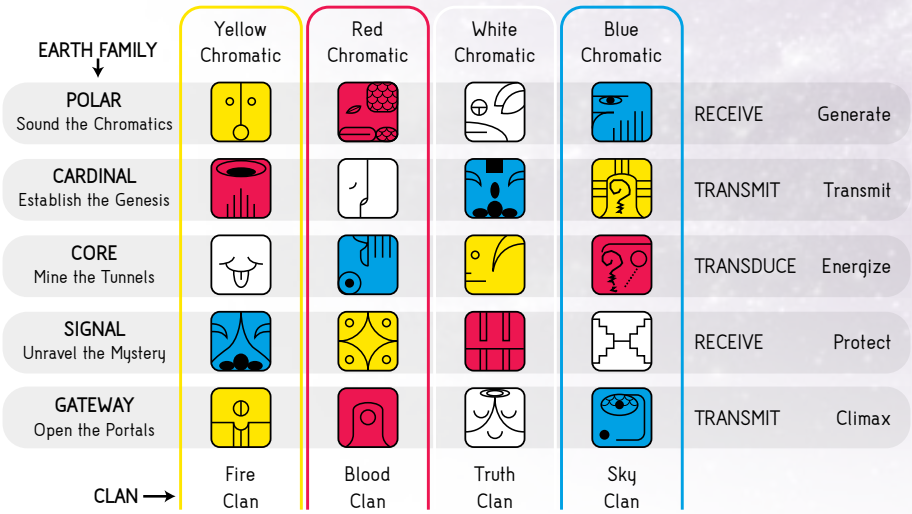
4-DAY CYCLE
THE 65 HARMONICS



4 COSMIC ROOT RACES:
Also known as **color families** are the fourth-dimensional genesis of human races according to the color code: **red, white, blue, yellow**; basis of time cell rotation of 20 solar tribes; their destiny is fulfilled as rainbow nation of Timeship Earth.

WHAT IS A HARMONIC?
A harmonic is known as each of the four (4) cosmic root race cooperative time cell codes. Five (5) time cells coded with one each of thirteen (13) galactic tones create the 65 (5x13) harmonics of the Book of Kin:.

5-DAY CYCLE
THE 52 CHROMATICS



WHAT IS A CHROMATIC?
It is a **five-kin sequence where first and fifth kin are the same color**. In other words, it is the quality of fourth-dimensional time as a continuously recirculating genesis; the dynamism of the four color constants, which evoke and are moved by the overtone fifth.

5 EARTH FAMILIES: Five sets of four color-coded seals; combined with thirteen galactic tones, codes solar birthday according to 52-year castle of destiny; horizontal code of Planet Holon.

4 CLANS: Primordial galactic colonization teams based on one of the **four galactic elements** (Fire, Blood, Truth & Sky) each one corresponding to one of the **four chromatics**.

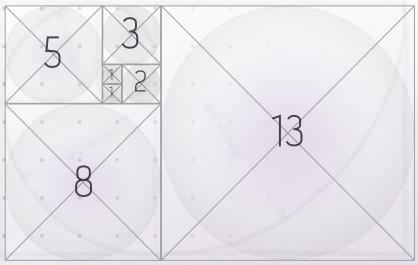
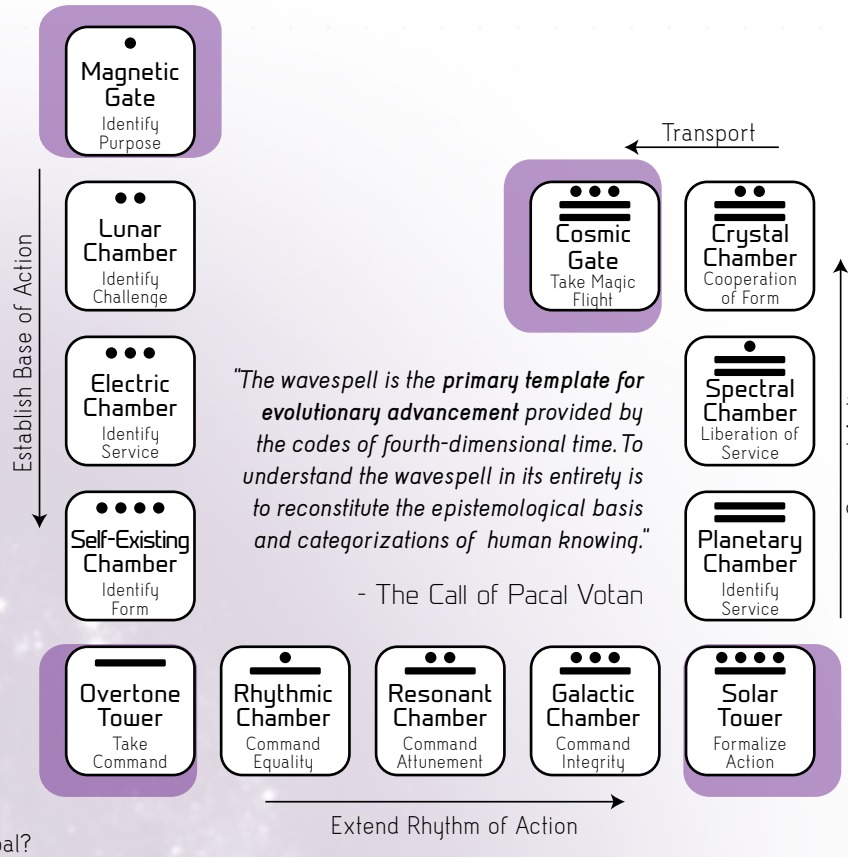
THE WAVESPELL



*The **Fibonacci sequence** present in all of Nature is also embedded into the Wavespell structure: Within the progression of first 13 Fibonacci numbers **(0, 1, 1, 2, 3, 5, 8, 13, 21, 34, 55, 89, 144)** we can notice that number **13** corresponds to the **7th position** (counting zero as zero point origin). This reaffirms the sacred geometrical relationship between the **7** and the **13** as the basic elegant mathematical principle behind the **Cosmology of Time (4:7::7:13)**. (See Chapter 2. "The Mathematics of Time").*



*"The wavespell is the **primary template for evolutionary advancement** provided by the codes of fourth-dimensional time. To understand the wavespell in its entirety is to reconstitute the epistemological basis and categorizations of human knowing."*

- The Call of Pacal Votan

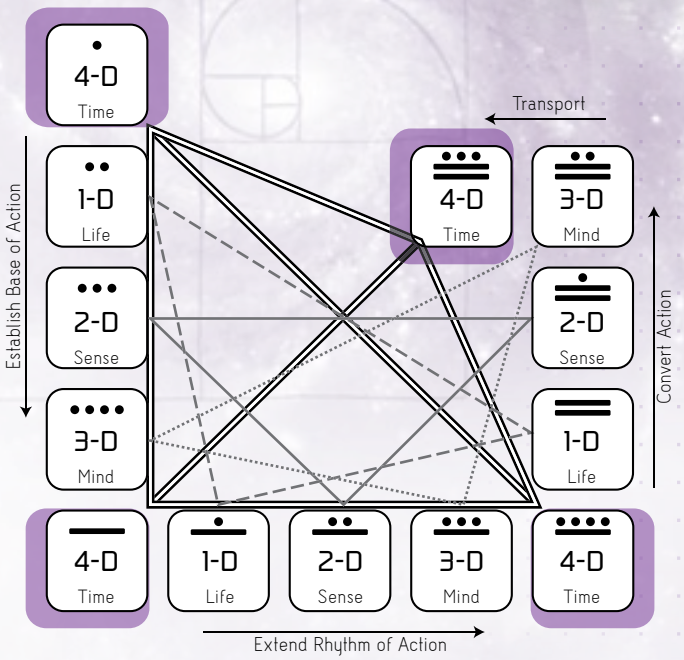
There are 20 Wavespells in the 260-Kin Tzolkin/ Galactic Spin. Every wavespell begins on the Magnetic Tone (Tone 1, one dot). The Wavespell can be used to plot action over any cycle of time operating by the wavespell: 13 days, 13 weeks, 13 moons, 13 years, 13 baktuns, etc.

THE PULSARS

The Four DIMENSIONAL PULSARS in the Wavespell

The integration of the wavespell field of time is a function of four pulsars. The pulsars show the unity of the four dimensions through time and hold true for any scale, 13 days, 13 moons, 13 years, etc.

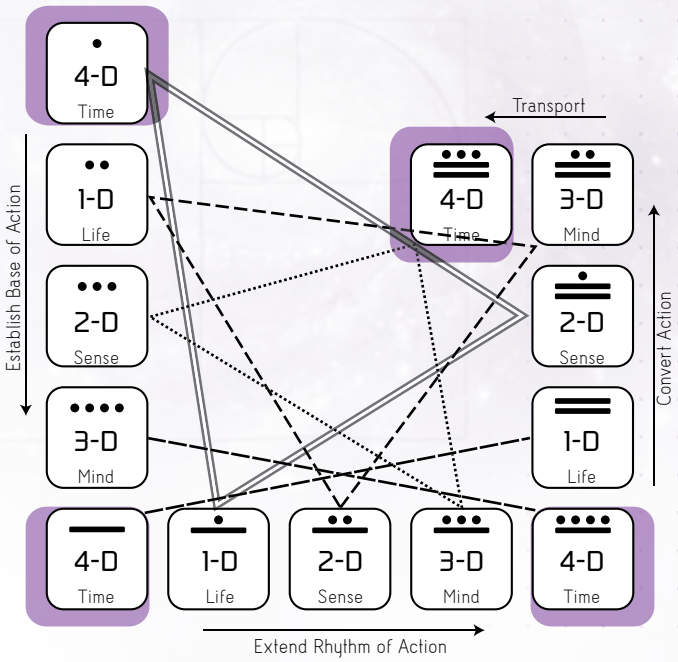
- Fourth-Dimensional Time Pulsar
- First-Dimensional Life Pulsar
- Second-Dimensional Sense Pulsar
- Third-Dimensional Mind Pulsar



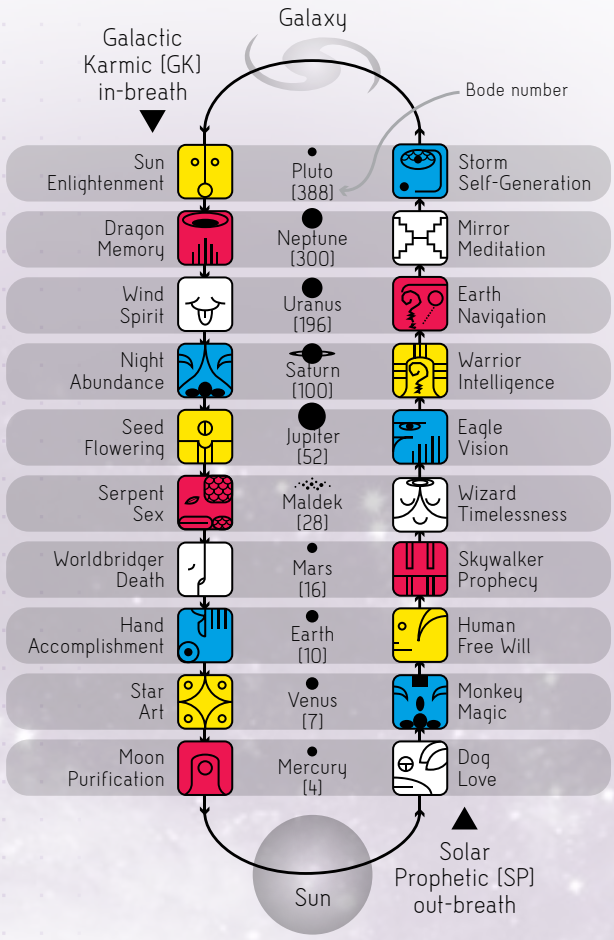
The Five OVERTONE PULSARS in the Wavespell

The overtone pulsars are a function of the dot-bar notation code (power of 5) and also determine the appearance of the five Earth Families within a wavespell.

- Magnetic Time Overtone Pulsar
- Lunar Life Overtone Pulsar
- Electric Sense Overtone Pulsar
- Mind-Time Overtone Pulsar
- Time-Life Overtone Pulsar



THE 20-DAY CYCLE IN THE SOLAR SYSTEM



The Tzolkin/Harmonic Module also consists of exactly thirteen 20-day cycles. The Harmonic Run counts from Dragon to Sun.

The 20 solar seals also break down into two sequences of 10 seals each, that correspond with each of the 10 planetary orbits. Each orbit has a galactic-karmic (GK) sequence, which goes from outer (galaxy) to inner (Sun), and a solar-prophetic (SP) sequence which goes from Sun out to galaxy.

Consciousness is a Function of Interplanetary Orbits

The purpose of a planet is to hold its orbit in relation to the orbits of other planets and altogether to the sun or stellar unit in an evolving star system. The capacity of a planet to hold its orbit is a function of the intelligence consummated in the planet. As holders of different functions of intelligence, the planet orbits harmonize the stellar intelligence in its patterns of galactic exchange.

Each planet also has a Bode number (shown in parentheses), the orbital ratios of the planets to each other in relation to their distance from the sun (as determined by German astronomer, Johann Elert Bode).

HUNAB KU 21: JOURNEY OF THE GALACTIC ARCHETYPES

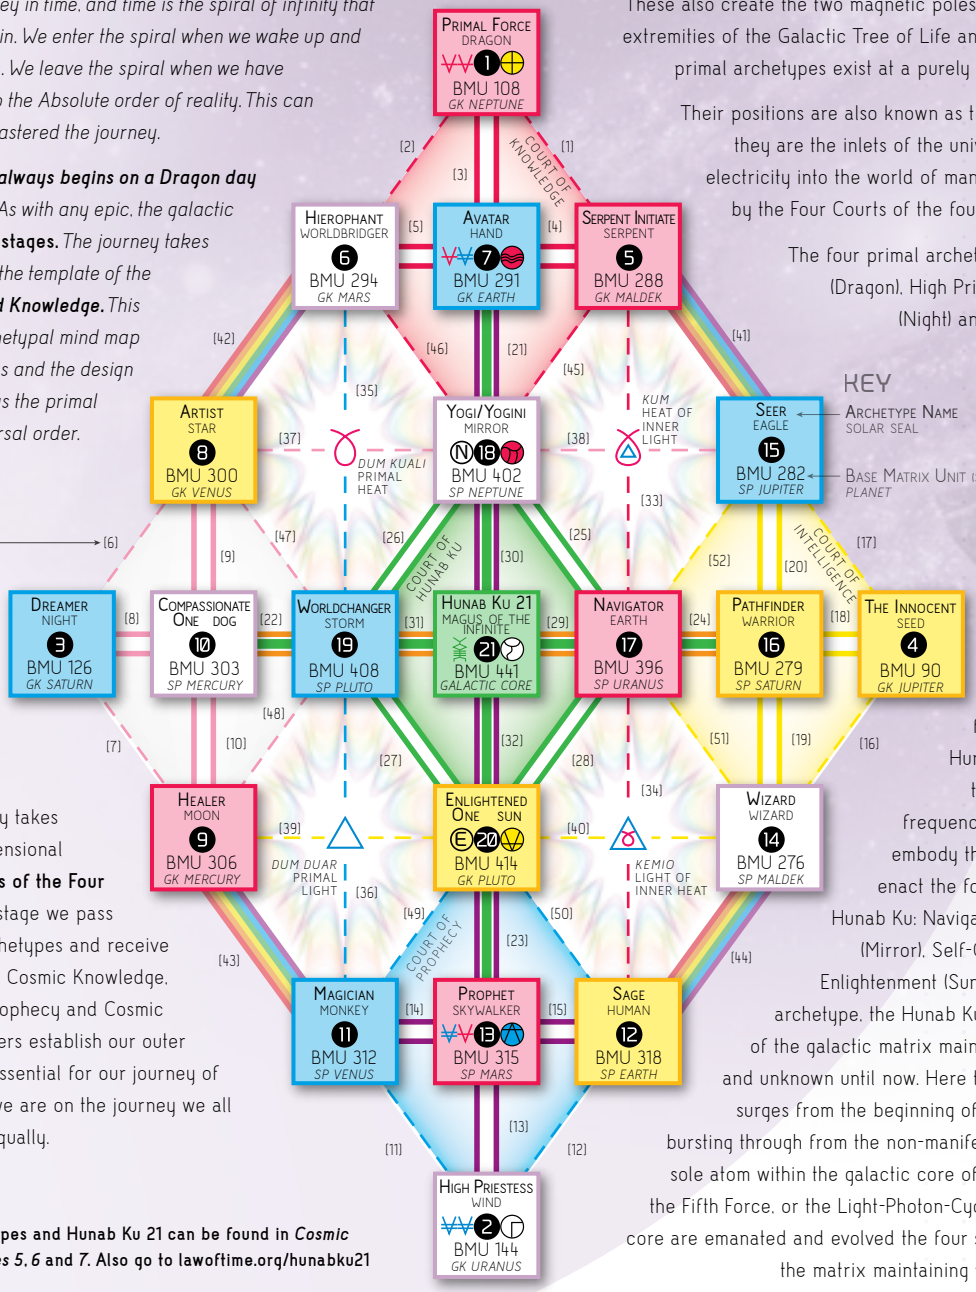
In the Galactic Journey we have 20 days to complete a cycle of archetypal embodiment. *This 20-day cycle can be repeated ad infinitum. But it is never the same, for it is a journey in time, and time is the spiral of infinity that goes from without to within. We enter the spiral when we wake up and wish to remain conscious. We leave the spiral when we have transcended and gone to the Absolute order of reality. This can only be when we have mastered the journey.*

The archetypal journey always begins on a Dragon day and ends on a Sun day. *As with any epic, the galactic journey* **occurs in three stages.** *The journey takes place upon and defines the template of the* ***Galactic Tree of Life and Knowledge.*** *This template is both the archetypal mind map of galactic consciousness and the design structure of the galaxy as the primal information unit of universal order.*

STAGE 1 - DAYS 1-4: The Four Primal Archetypes of the first four days of the Journey. Here we establish ourselves in the four primal archetypes. These also create the two magnetic poles and the two energetic extremities of the Galactic Tree of Life and Knowledge. The four primal archetypes exist at a purely fifth-dimensional level.

Their positions are also known as the **Four Light Gates,** as they are the inlets of the universal light and cosmic electricity into the world of manifestation, represented by the Four Courts of the four outer cosmic powers.

The four primal archetypes are: Primal Force (Dragon), High Priestess (Wind), Dreamer (Night) and The Innocent (Seed).



ONE OF THE 52 HEPTAD PATHS. EACH OF THE 52 HEPTADS (OR WEEKS) OF THE 13 MOON CALENDAR ARE CODED BY THESE HEPTAD PATHS

STAGE 2 - DAYS 5-16:
This stage of the journey takes place in the fourth-dimensional realm of the **Four Courts of the Four Cosmic Powers.** At this stage we pass through 12 different archetypes and receive the four cosmic powers: Cosmic Knowledge, Cosmic Love, Cosmic Prophecy and Cosmic Intelligence. These powers establish our outer manifestation and are essential for our journey of unification. As long as we are on the journey we all receive these powers equally.

STAGE 3 DAYS 17-20:
In the last four days of the journey we enter the inner fifth force realm of the Hunab Ku, returning again to the fifth-dimensional frequency of the Higher Self to embody the four archetypes that enact the four principle powers of Hunab Ku: Navigation (Earth), Meditation (Mirror), Self-Generation (Storm) and Enlightenment (Sun). Here the fifth primal archetype, the Hunab Ku, resides at the center of the galactic matrix maintaining his vigil unseen and unknown until now. Here the most primal energy surges from the beginning of creation, continuously bursting through from the non-manifest light universe to the sole atom within the galactic core of the manifest universe: the Fifth Force, or the Light-Photon-Cyclone energy. From this core are emanated and evolved the four supreme archetypes of the matrix maintaining the Court of Hunab Ku.

The system of the archetypes and Hunab Ku 21 can be found in *Cosmic History Chronicles, Volumes 5, 6* and *7*. Also go to lawoftime.org/hunabku21

4 SEASONS ON EARTH
4 SEASONS IN HEAVEN

65-DAY CYCLE
THE 4 GALACTIC SEASONS

The fifth-dimensional timing factor is the principle of the four galactic "seasons" or spectra which describe the primal creative powers of the fifth force. Though each spectrum is mathematically a quarter of the primal timing sequence, from the fourth-dimensional perspective these "seasons" are perceptible as chromatic runs, each chromatic run being a quarter of an entire chromatic spectrum. ... The fifth-to-fourth-dimensional movement of the four galactic seasons coordinates contiguous fourth-to-third-dimensional galactic spins. It is called a spectral fractal because the pure fourth-dimensional state of reality is spectral [form and luminosity] rather than material [volume and mass].

- Jose Arguelles/Valum Votan, The Call of Pacal Votan: Time is the Fourth Dimension

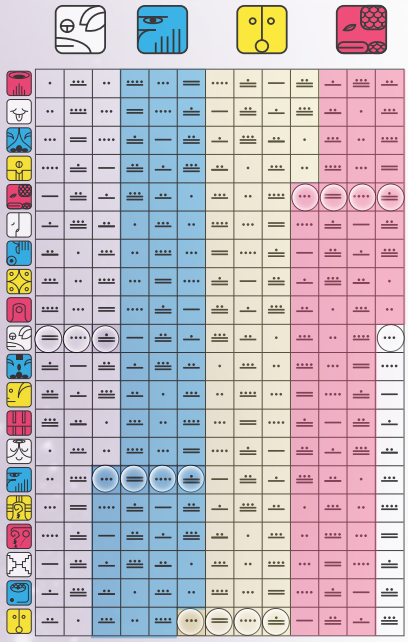
There are four 65-day cycles within a 260-day spin. These cycles are coded by the **third [electric]** tone of the four kin of the **polar earth family**, i.e. Red Electric Serpent, White Electric Dog, Blue Electric Eagle and Yellow Electric Sun.

Red Galactic Spectrum
Initiating Season of Life Force: Kin 185-249

White Galactic Spectrum
Refining Season of Love: Kin 250-54

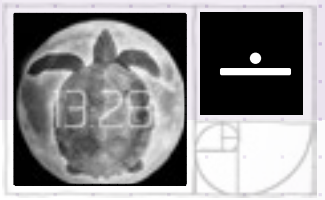
Blue Galactic Spectrum
Transforming Season of Vision: Kin 55-119

Yellow Galactic Spectrum
Ripening Season of Enlightenment: Kin 120-184



Each Galactic Seasons/Spectrum is divided into three 20-day cycles plus one 5-day cycle, coded by the four Polar Kin: Red Serpent, White Dog, Blue Eagle, and Yellow Sun, always in this sequence:

TONE 3: ESTABLISH [20 DAYS]
TONE 10: EXTEND [20 DAYS]
TONE 4: CONVERT [20 DAYS]
TONE 11: TRANSPORT [5 DAYS]



15. LOOKING DEEPER INTO THE 13:28 MOON CYCLE

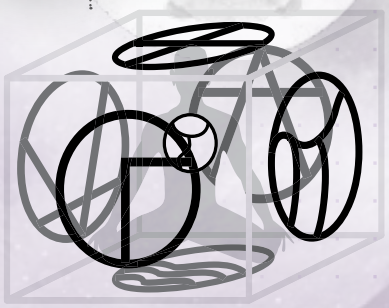
7 DAYS OF CREATION:
The Plasma Cube Cosmology

Within the prana, or the vital breath, are the different primary plasmas, known as the 7 radial plasmas. Once consciously breathed in, these plasmas may be directed to different chakras, where they provide the energetic psychotelepathic fuel.

- Book of the Throne, Cosmic History Chronicles Vol. I

Each day, visualize the plasma in your chakra, recite the affirmation, then place the plasma seal in the corresponding cube position, imagining yourself at the center of the cube. This practice telepathically activates the seven radial plasmas of the New Creation in the form of the fourth-dimensional cube.

7-DAY CYCLE
THE HEPTAD



My father is intrinsic awareness.
I feel the heat.
CUBE TOP, ABOVE YOUR HEAD

My mother is the ultimate sphere.

CUBE BOTTOM, BENEATH YOUR SEAT

My lineage is the union of intrinsic awareness and the ultimate sphere. I attain the power of peace.
CUBE FRONT, IN FRONT OF YOU

My name is the glorious Lotus-Born.

HOW TO PLAY:

THE TELEKTONON is an interplanetary circuit board which becomes the **technology of telepathy** when utilized daily via the codes of the **13 Moon calendar** and synchronic order. Use this Telektonon **Board** as a guide - or cut it out of your Almanac, **color and laminate it** to create your own "playing board". Use small crystals, stones or other markers to track the **28-day cycle** and "read" the daily oracle. We will use Red Solar Moon (26 July 2014) as an example.

1. Place a marker on day 1, since it the first day of the 28-day cycle. Also place a marker on the Moon solar seal in the 20-day battery (coded by galactic notation 0-19).

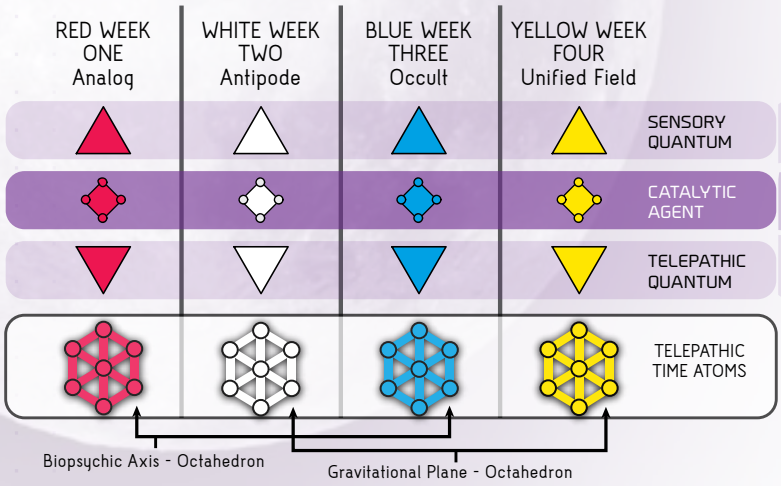
2. Now place markers on each solar seal of the daily fifth force oracle: Moon (destiny kin), Serpent (guide), Dog (analog), Storm (antipode) and Human (occult). To find the fifth force layout for daily kin see page 268.

3. Note that days 7-22 is known as the **16-Day Warrior's Cube Journey**. On these days you will **place a marker in the 16-day cube** on the appropriate solar seal. For example on day 7, Hall of the Dragon/ Memory Cube, you place the marker over the Dragon, etc.

Study the layout. Note the various planets being activated, and their powers. Note each of the **10 planets** have two flows: GALACTIC KARMIC **(galactic inhalation)** and SOLAR PROPHETIC **(solar exhalation)**. Notice any connections or synchronicities, or even horizontal, vertical or diagonal "lines of force" connecting the crystals on your board. **For example,** the Red Solar Moon and its analog partner, Dog, are both associated with planet Mercury: Purification opens the portals of Love. This also indicates a big **Alpha-Omega recharge** on the most external circuits of consciousness. The antipode power is Blue Solar Storm (SP Pluto), challenging us to catalyze solar consciousness through the power of self-generation. The occult frequency, Human, is associated with SP Earth and is located on the Free Will tower on the third circuit - the Telektonon Earth spirit speaking tube. The guide, Serpent, is associated with GK Maldek, the redemption of lost worlds located on the 5th circuit of internalizing intelligence. This can all be meditated daily to derive many subtle qualities of information.

CREATING THE MASTER TIME MOLECUL:E
The science behind the rainbow bridge:

This practice builds on the **7-DAY RADIAL PLASMA CUBE MEDITATION** and prepares us for the full meditation of the Rainbow Bridge. Every week we create one time atom as shown in the graphic.



On the **28th day of each moon** the four time atoms become the **Master Time Molecule,** which we visualize at the center of the Earth. The top half of the octahedron is red and white, and the bottom half blue and yellow. This provides the electromagnetic core from which the circumpolar rainbow bridge is ejected.

RAINBOW BRIDGE MEDITATION

Visualize yourself inside the Earth's octahedron crystal core (with two red and white sides on top, and two blue and yellow sides below). In the center of this core is an intensely blazing point of white light. An etheric column extends North and South from the blazing center to the tips of the octahedron.

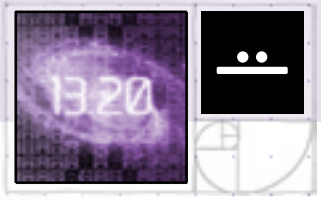
Coiled around the etheric axis like two strands of DNA, are the red and blue flux tubes. In the crystal core are four time atoms. A red time atom is strung on the northern axis, and a blue one on the southern. The gravitational plane of the octahedron emanates horizontally from the center point. Along this plane are two more time atoms, a white and a yellow one, which turn like paddle wheelers making a counterclockwise motion around the center.

Now visualize that from the center of the crystal a great stream of multicolored plasma-filled light flows along the axis toward both of Earth's poles, shooting out from them to become two rainbow bands 180 degrees apart. As Earth revolves on its axis, this rainbow bridge remains steady and constant, unmoving.

Next take the whole vision of the rainbow bridge around the Earth and place it in your heart. Imagine the two streams of rainbow light rushing through your central column, shooting out from above your head and beneath your feet to create a rainbow bridge around your body. Now you and the rainbow bridge are one. The rainbow bridge of world peace is real. Visualized by enough people in a telepathic wave of love, the rainbow bridge will become a reality.

For full meditation see lawoftime.org/rainbowbridge or see youtube.com/lawoftime for a more in depth description.

16. SYNCHRONIZING THE TZOLKIN & THE 13-MOONS



SIRIAN REBIRTH

As explained in Chapter 6, the 13 Moon/28-Day calendar and 260-day Tzolkin/Galactic Spin combine to make a perfect 52-year cycle. **Your signature engages this 52-year Cycle in a unique pattern called the Destiny Castle.** The Destiny Castle demonstrates the power of time magic by revealing different patterns and synchronicities in your life that you may not have otherwise known about.

Your galactic signature is the basis of your personal Destiny Castle. Each year on your birthday you cycle through a new galactic identity based on one of the 13 tones and one of the four solar seals of your Earth Family.

Which Earth Family Are You?

Find your Seal in the chart below. Circle which Earth Family you are in. The Four Seals of your Earth Family are the Seals that you will draw into your Detiny Castle below, always in the sequence of Red, White, Blue, Yellow.

Polar Earth Family

Cardinal Earth Family

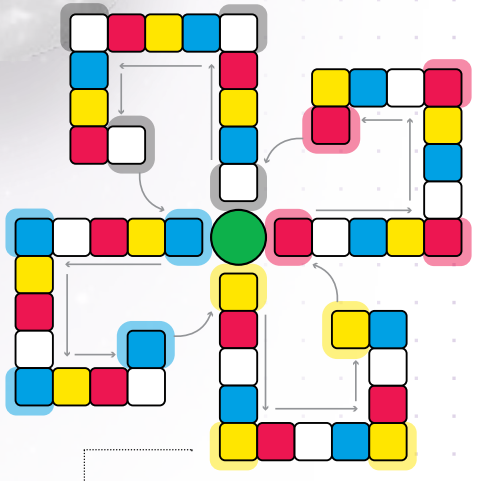
Core Earth Family

Signal Earth Family

Gateway Earth Family

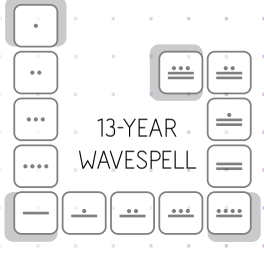
52-YEAR CYCLE
THE DESTINY CASTLE

The sequence of your galactic signature belongs to one of the five Earth Families and is always coded by one of the colors, Red (R), White (W), Blue (B), Yellow (Y). As shown in the graphic, the Destiny Castle consists of four wavespells. Although each wavespell is rotated to a different orientation they all still follow the same numbering of 1-13 for each position.



Example:
Begin HERE if you are a Yellow Overtone Star

That's because this the Yellow (Y) unit in the Overtone tone — position!



X 4 = 52-YEAR CASTLE

MY DESTINY CASTLE

Time to time-travel!

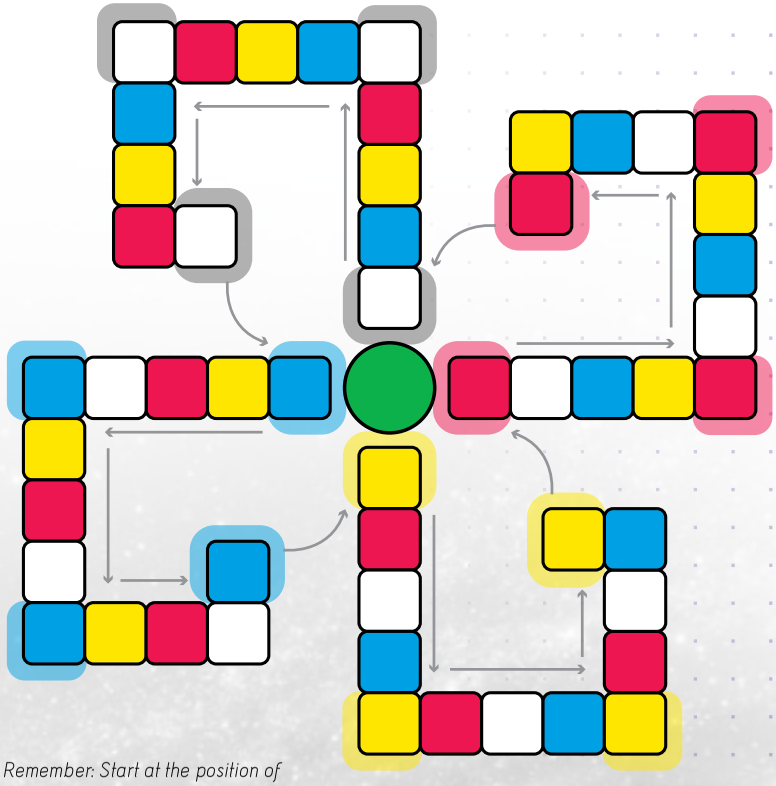
1. Match the color and tone of your galactic signature with the specific position in the Destiny Castle.

2. Fill this position in on the empty Destiny Castle provided. Your galactic signature is your Year 0 point - or galactic gateway - your entry to this planet.

3. Once you have located your galactic gateway on the Destiny Castle, each succeeding kin represents the sequence of your solar birthdays. Moving through all four wavespells of the Destiny Castle, your 51st birthday will be represented by the position preceding the galactic signature of your birth.

4. Make a record of the years of your life and the corresponding galactic signatures so you can study your life with 4-D glasses!

For example: *If your galactic gateway is Yellow Overtone Star, you start with the Yellow "Overtone" tone position (—), then when you are 1 year old you will be a Red Rhythmic Skywalker; 2-years old a White Resonant Mirror; 3-years old a Blue Galactic Night; and 4 years old Yellow Solar Star; and when you are 51, you will be Blue Self-Existing Night, the last position before your galactic gateway and so on. Remember you are always moving counter clockwise. Just keep going from wavespell to wavespell until you get back to where you began. This is your 52-year cycle. When you turn 52 this is your* ***"SIRIAN REBIRTH"*** *since the cycle of Sirius is 52 years. After that, the cycle repeats, i.e. when you are 53 you will be the same galactic signature as when you were 1 year old, when you are 54 you will be the same galactic signature as when you were 2 years old, and so on.*



Remember: Start at the position of your Tone and the color of your Seal.

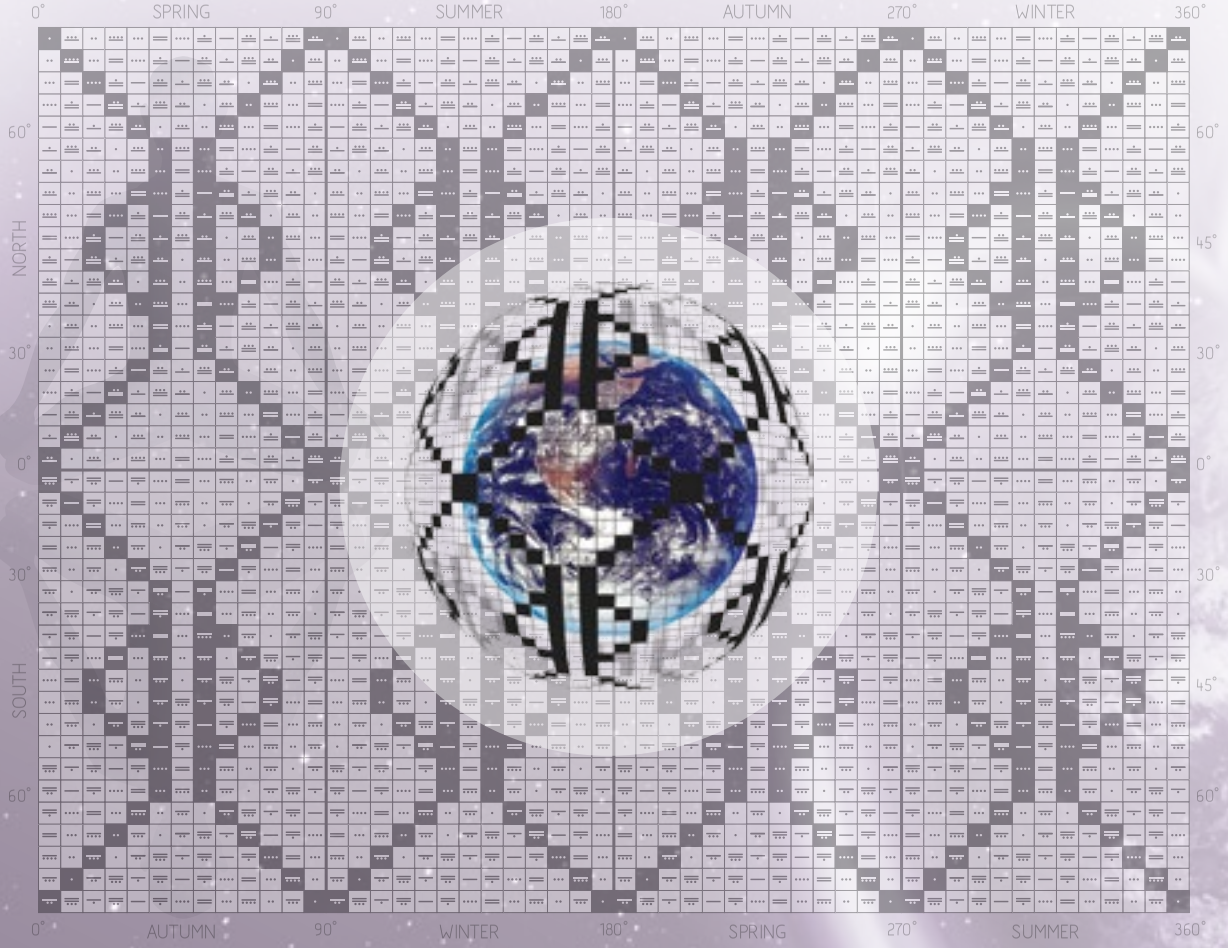
17. THE PSI BANK AND THE PLANETARY BRAIN

Practically, the Rinri Project is a telepathic experiment synchronized with two daily patterns: the Telektonon playing board, marking positions within the 28-day biotelepathic cycle; and by the Dreamspell Human and Planet Holons which register the biogeological flow of fourth-dimensional time according to the 73 overtone chromatics of the biomass constant within the form of the 13 Moon calendar.

- The Complete Guide to the Rinri Project, p. 14



THE PSI BANK

The PSI BANK is the **memory storage and retrieval system of the noosphere** (Earth's mental sphere), and also includes the evolutionary timing programs. The structure of the psi bank can be visualized as 8 TZOLKINS, as seen on left, wrapping around the Earth, where the four vertical rows align to the four seasons and the two horizontal rows align to the north and south hemispheres. Note that the north and south Tzolkins are inverted in relation to eachother.

1 **260-UNIT** Tzolkin = **1/2** of one PSI Plate
1 **PSI PLATE** = **520-UNITS** (**2** Tzolkins, one in the North + an inverted one in the South)
4 PSI PLATES = Complete **2080-UNIT** PSI Bank

Your 13 Moon calendar includes the **DAILY "PSI CHRONO UNIT"** (marked **PSI**). This indicates which unit of the psi bank we are activating on that day! Each day locate the PSI CHRONO UNIT on the Tzolkin and practice visualizing the PSI BANK, with the PSI CHRONO UNIT of the day pulsating on all eight PSI Bank Plates. Visualize that unit glowing and pulsating in its color. For example, if the Psi Chrono Unit is Red Magnetic Dragon, visualize it in red.

For an illustration of how the Psi Chrono Units flow through the 13 Moon calendar go to:

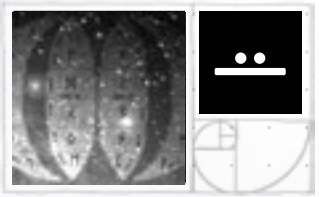
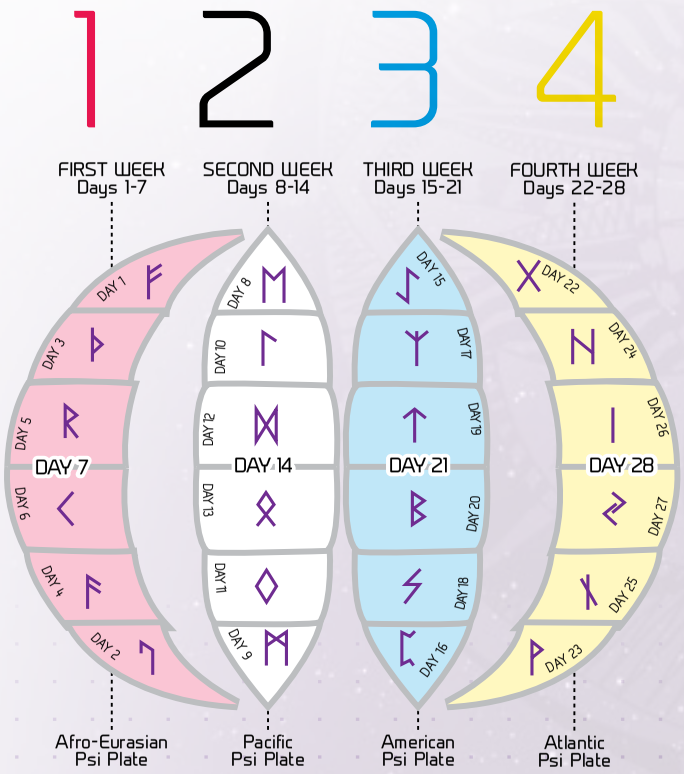
18. THE 24 RUNES OF THE ELDER FUTHARK



THE PSI MEMBRANE

The **"PSI MEMBRANE"** holds the **24 FUTHARK RUNES** and wraps around the Inner Earth in 4 Plates: **Afro-Eurasian, Pacific, American, Atlantic**. The central horizon line aligns with the Earth's equator. The 4 PSI PLATES correspond to the four weeks of every 28-day moon. For all four weeks of each moon, one Futhark rune codes each of the first six days of the heptad/week (Dali, Seli, Gamma, Kali, Alpha and Limi), this creates the basis of a cube, with day 7/Silio being the invisible centerpoint that holds the cube together.



WEEK 1. AFRO-EURASIAN PLATE

Day 1: **FEHU** is Flaming Abundance that initiates the Throne.

Day 2: **URUZ** is the Power of Shaping that initiates the Avatar.

Day 3: **THURISAZ** is the Sacred Struggle that initiates the Mystery.

Day 4: **ANSUZ** is the Breath of Votan that initiates the Initiation.

Day 5: **RAIDHO** is the Solar Ring that initiates the Timespace.

Day 6: **KENNAZ** is the Light-searing torch that initiates the Transcendence.

Day 7: **Cube Power of 7**
Cubes the Afro-Eurasian Plate by the power of Fehu-Kennaz.

WEEK 2. PACIFIC PLATE

Day 8: **EHWAZ** is the Union of Horse and Rider that refines the Throne.

Day 9: **MANNAZ** is the Whole Human that refines the Avatar.

19. THE 64 UR RUNES AND CODONS

NOOSPHERIC GENETIC CODE
AC (Aboriginal Continuity) & CA (Cosmic Awareness)

Coding the **AC** and **CA** templates of the noosphere psi bank are the 64 UR Runes and Codons. In the cosmic science of the Law of Time the **64 UR Runes** are the information units governing the permutation sequences of the **64 codons** coding all living matter. In the *20 Tablets of the Law of Time* the 832 permutation sequences run one codon per week for sixteen years, 1997-2013, while one of the 64 UR Runes codes each of the **64 91-day quarters** of this 16-year cycle. In the advanced synchronic sequence of the 13 Moon/28-DAY cycle as it runs through the **441 MATRIX**, these 64 UR Rune sequences also repeat 4 times every 260 days. By making telepathically available these **psychogenetic life codes** on a daily basis, you can participate in the creation of YOUR OWN **galactic life renewal program**.

20. THE 64 BIPHASIC CODONS

THE TIME/SPACE GALACTIC DNA CODE

The 20 Tablets of the Law of Time constitute an entirely new system of knowledge which in turn defines a wholly new map of the mind. This system comprehends all previous knowledge and radializes all maps of consciousness into one purposive pattern. This system of knowledge is without historic precedent. However, its two principle organizing forms of knowledge are rooted in two hitherto ununited traditions: the Mayan calendar of Mesoamerica and the I Ching (DNA Code) of China. The unification in time of these two orders of knowledge in the 20 Tablets is more than just the sum of the two systems, but is categorically the total infrastructure of the knowledge defined as the fourth dimension. This is an accomplishment which had defied historic man until this evolutionary moment.

Remember when you learned about the 65 Harmonics in the 4-DAY cycles section on page 272? Each of the 4-DAY HARMONICS is also coded by one of the 64 Codons and UR Runes. These are called the "BIPHASIC CODONS" because if you study the chart to the left you'll notice they are arranged in two equal "phases", each characterized by mostly "TIME" or mostly "SPACE" lines.

The "biphasic matrix" consists of 65 four-day harmonics that overlay the Tzolkin matrix. Each of these four-day harmonics accommodates one of the 64 UR runes and codons. In your Almanac, the daily Biphasic Codon is shown and changes with every 4-day Harmonic. See the previous page and locate the UR rune and Codon name and corresponding phrase for meditation.

*While there are eight strands of UR Runes that code the psi bank, governing the evolutionary sequences of planetary life, there are six strands of UR harmonic runes that govern the sequence of the **"Second Creation."** Since the genetic base of physical biological life is already established with the **64 UR Runes**, the 48 UR harmonic runes are more like MUSICAL TONES, and the six UR strands are referred to as OCTAVES. Within their six-octave range these 48 tones define the frequencies of cosmic evolution as a function of telepathic resonances. These harmonic runes are to be imprinted on the axis of the corpus callosum. Three octaves of 24 runes define the AC psychogenetic template, and the same for the CA psychogenetic template.*

The common unified means of communication within this intergalactic order of reality is Telepathy. The system of Telepathy is coordinated by a Number Language collectively transmitted and understood.

7 Postulates of The Galactic Operating System,
- Postulate #3 -

SYNCHRONOTRON:
Operating System For The New Time

The system of SYNCHRONOTRON is a tool for learning the **mathematical language of telepathy**, which is coded into the Law of Time. It is **a teaching from Sirius** that contains the **language of post-conceptual mind**. When studying this system, it is helpful to keep 9 principles in mind:

1. Number is **frequency**.
2. Number is the **basis of all creation**.
3. Everything in creation is based on Number.
4. Number is the **primary, exalted language**; it precedes and evolves language.
5. After language, there is Number.
6. Number is the **telepathic frequency language** based on complete **whole number mathematics**.
7. Number is a **dimension**, just as space is a dimension and time is a dimension. (where there is Number, there is mind).
8. Number creates **order out of time and space**.
9. All is Number. God is a Number.
   GOD IS IN ALL.

THE 441 CUBE MATRIX

Synchronotron refers to the compendium of the practices of the CUBE MATRIX SYSTEM. This mathematical system represents the minimum fractal of totality cubed: **21 x 21** being the prime statement of **totality (20) + unity (1) = 21: unity of totality**. *Please read the full introduction and instructions at* ***lawoftime.org/synchronotron***

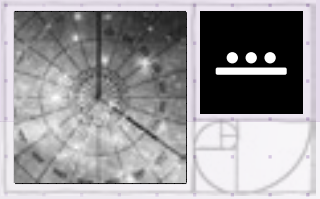
24. THE 13:7 WHEEL OF THE LAW OF TIME



The Law of Time is the Movement of Hunab Ku. The Law of Time is the Law of One 13:7, which establishes:

- *The 13:20 Frequency Wheel, Factor of Universal Synchronization.*
- *The Wavespell, the complete 13:7 recapitulated cosmology.*
- *The Tzolkin Matrix - The 4th Dimensional Cosmological Timing and Personality Index*

- 7 Postulates of The Galactic Operating System, Postulate #6

THE MOVEMENT OF HUNAB KU

The 13:7 Wheel of the Law of Time establishes a recurring cycle of 91 sets of permutations based on the reciprocals of 7, 13 and 91, and demonstrates the recombinant power of 27 as the unifying medium and constant, and 9 as the universal solvent. Consider this practice preparatory to the rest of the 441/synchronic order practices. The 13:7 code formula: 91 sets of permutations based on the daily combinations of the 13 wavespell tones and the 7 weekly heptad gates in sequence.

The 13:7 code formula: 91 sets of permutations based on the daily combinations of the 13 wavespell tones and the 7 weekly heptad gates in sequence, where the tones are represented by the perfect reciprocal factors of 13 (076923, 153846, 230769, etc.) and the heptad gates by the perfect reciprocal factors of 7 (142857, 285714, etc.).

Study the sequences of the reciprocal factors. You can see which reciprocals are happening for any given day. For example Dali 1 of the first Moon, Kin 9 Red Solar Moon is Dali ⊕ (142 857) and Solar tone ⁘ (692 307). For further instructions on the 13:7 Wheel of the Law of Time Synchronotron Practice, see Intergalactic Bulletin #4 at: ***www.lawoftime.org/synchronotron***

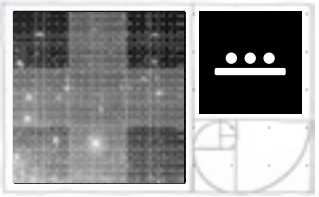
25. THE DAILY SYNCHRONOTRON PRACTICE



Through a simple process, each day we arrive at a **Master Coordinating Frequency** number **(MCF),** which is the sum of three **Telepathic Frequency Index** numbers **(TFI).** In the Synchronotron system there are five matrices: The **Base Matrix,** the **Time Matrix,** the **Space Matrix** and the **Synchronic Matrix** (the three "moving matrices"), and the **Holomind Perceiver Matrix.** The Base Matrix is used simply to locate you (it is not added to any other number but stands alone) and the three "moving matrices" is where you find the numbers which you'll be adding to arrive at the Master Coordinating Frequency.

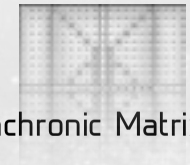
Remember, in the 13 Moon calendar there are two main cycles we are tracking simultaneously: The 13 Moons of 28 days each, and the 260-Kin galactic spin. Therefore, **in the daily Synchronotron practice, we use the 13 Moon date and Daily Kin** to find the coordinates in the three "moving matrices": The Time, Space and Synchronic matrices. This will give you three sets of three numbers. You can also use your 13 Moon birth date and Kin to find your own frequency. For this example, let's use the first day of this year: Magnetic Moon Dali 1 - Kin 9, Red Solar Moon. *Before you begin, get familiar with the Matrices on the next page.*

Time Matrix TFI:

First we find the **13 Moon date** in the Time Matrix. Carefully read how to find the 13 Moon calendar date within the Time Matrix. Our example date, Magnetic Moon 1, is located in the top and leftmost corner. Write down the coordinates ("V1.H1"). Now find this same location on the Base Matrix. Each number on the Base Matrix is called a **Base Matrix Unit (BMU)**, and we see that V1.H1 is number 41; this means that the **Time Matrix BMU is 41.** Next, find the same location (V1.H1) on the other two "moving matrices", the Space Matrix and Synchronic Matrix. In the Space Matrix, V1.H1 is number 278. In the Synchronic Matrix V1.H1 is 1. Lastly, write down and add those three numbers: Time Matrix (1), Space Matrix (278), Synchronic Matrix (1). 278 + 1 + 1 = 280. So the **Time Matrix TFI is 280. Write this number down.**

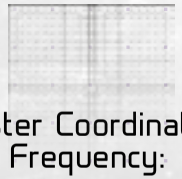
Space Matrix TFI:

Next we find the Kin number within the white areas of the Space Matrix. In this example it is Red Solar Moon (Kin 9), so find "9" on the white area of the Space Matrix and write down its coordinates ("V4.H2"). Again, find this coordinate on the Base Matrix to get the **Space Matrix BMU (115).** Next, find this same location on the other two "moving matrices", the Time and Synchronic matrices, and write down and add the numbers you find: Time Matrix (8), Space Matrix (9), Synchronic Matrix (128). 8 + 9 + 128 = 145. So the **Space Matrix TFI is 145. Write this number down.**



Synchronic Matrix TFI:

Now we also find today's kin number on the Synchronic Matrix. So find the location of Kin "9" in the Tzolkin region on the Synchronic Matrix, write the coordinates ("V5.H9"). As before, find this same coordinate on the Base Matrix to get the **Synchronic Matrix BMU (301).** Again, find the same location on the other "moving matrices" (the Time Matrix and Space Matrix) and write down and add the numbers you find: Time Matrix (157), Space Matrix (42), Synchronic Matrix (9). 157 + 42 + 9 = 208. So the **Synchronic Matrix TFI is 208. Write this number down.**



Master Coordinating Frequency:

The final step is to add the the three TFI's from the three matrices to arrive at the Master Coordinating Frequency! Remember: Do not add the BMU's as they stand alone. So we add the TFI's from the three matrices: 280 + 145 + 208 = 633. So the **Master Coordinating Frequency (MCF) is 633. Write this number down.** You can now reduce this by multiples of 441 to find the Master Coordinating Base Matrix Unit: 633 - 441 = BMU 192. So the **Master Coordinating BMU is 192.** Now find "192" on the Base Matrix and write down the coordinates ("V3.H10"). Later you will find this location on the Holomind Perceiver Matrix. You can also reduce the MCF by multiples of 260 to find the Synchronotron **Kin Equivalent:** 633 - 520 (260 x 2) = 113! So the **Kin Equivalent is Kin 113, Red Solar Skywalker:** This year's Day Out of Time!

Synchronicity, or the Synchronic Order is when a self-reflective consciousness or intelligence puts together what is happening simultaneously in the Dimensions of Mind, Number, Space and Time.

26. THE 4 MATRICES

BASE MATRIX

DIMENSION OF **NUMBER**

Numbered 1-441 beginning in the lower right-hand corner, and counting forward in a counter-clockwise spiral in ten concentric circuits until reaching the center of the matrix = 11th vertical axis and 11th horizontal axis (V11.H11) = 441.

The Base Matrix is the foundational locator matrix. You do not add the Base Matrix Units when doing the daily Synchronotron code calculations. Rather, each of the 1-441 Base Matrix Units is like one stand-alone entry in the 441 Dictionary of Number at www.**lawoftime.org/synchronotron.** Ultimately, the Base Matrix is also how you locate the daily coordinate(s) on the Holomind Perceiver matrix.

The 441 matrices also overlay upon the brain. When you are looking at this matrix, the bottom corresponds to the front of your brain, the back aligns to the back of your brain. The right hemisphere of the matrix overlays the left brain and the left hemisphere of the matrix overlays the right brain. To begin telepathically imprinting the 441 matrix, color the diagonals from corner to corner in red, and the V11 column and H11 row in blue.

TIME MATRIX

DIMENSION OF **TIME**

The Time Matrix is the first of the three "moving matrices" for the daily 441 practice.

All 28 days of all 13 Moons are contained in the 4 Outer Time Dimensions (white quadrants) of the Time Matrix. Each quadrant is 7 rows of 7 units each. Thus, one row of each quadrant is a 7-day week.

Examples:

Magnetic 1 = V1.H1 **(1)**

Magnetic 2 = V2.H1 **(2)**

Resonant 15 = V1.H21 **(97)**

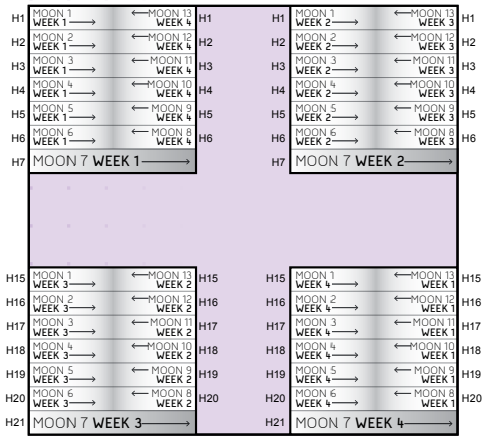
Resonant 28 = V21.H21 **(144)**

Galactic 1 = V21.H20 **(141)**

Galactic 2 = V20.H20 **(140)**

Cosmic 15 = V21.H1 **(48)**

Cosmic 28 = V1.H1 **(1)**



Moons 8-13 mirror Moons 1-6. Moon 7 has no mirror. The four weeks in Moons 1-7 descend through rows H1 to H7 and H15 to H21, moving left to right. The four weeks in Moons 8-13 mirror Moons 6-1, ascending through rows H20 to H15 and H6-H1, moving right to left. Moon 7 ends at V21.H21 and Moon 8 begins at V21.H20. SPACE MATRIX
DIMENSION OF **SPACE**

The Space Matrix is the second of the three "moving matrices" for the daily 441 practice.

Four 8 x 8 quadrants of 64 Kin each (4 x 64 = 256) plus 4 Kin around the central core makes 260. Each quadrant of 64 is then encircled by a sequential count from 261-400. Finally the V11 and H11 axes complete the count from 401-441.

To understand the sequence of each of the 8 x 8 quadrants, try colored pencils to connect the dots, starting in the first quadrant at V2.H3. Then take a different color for the second quadrant, which begins at V13.H3, and yet another color for the third quadrant that begins at V2.H14 and finally in the fourth quadrant which begins at V13.H14.

In the daily practice simply find the Kin number (within the four 8 x 8 quadrants or 4 central master units (257-260). These four quadrants are also the basis of the MOAP: Mother of All Programs.

SYNCHRONIC MATRIX
DIMENSION OF **SYNCHRONICITY**

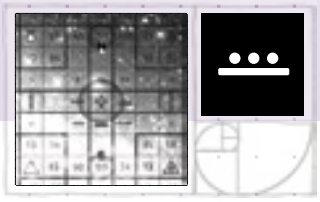
The third of the three "moving matrices".

Contains 260-Kin Tzolkin within vertical columns 5-17, with its seventh Mystic Column corresponding to the 11th vertical colum, while the 11th horizontal row contains the 13 powers of cosmic creation. The four columns on either side of the Tzolkin are the 84 right-hand and 84 left-hand dharma gates, numbered 1-168 (21 x 8).

Just as the matrix is reversed as you look at it, the right-hand gates are on the left side, and the left-hand gates are on the right side. This is to help us to begin to cultivate radial consciousness.

In the daily practice, find the Kin number in the Tzolkin and note the coordinate.

Example: Kin 9, Red Solar Moon = coordinate V5.H9



27. THE HOLOMIND PERCEIVER

The purpose of imprinting the 11th-dimensional system of the cube/ Holomind Perceiver is to attain the full radialization of consciousness. This is a completely integral system of internal/intrinsic reciprocity of all components, circuits, elements and frequencies - it is the very living/working mechanism of the cosmic consciousness of evolved galactic being, the telepathic circuitry of the noosphere.

- Valum Votan

A NEW SENSE ORGAN

Once you're comfortable with the practice of finding the daily Master Coordinating Frequency you can then begin the advanced practice of the Holomind Perceiver Matrix - the map of the "nanochip" or new sense organ to be telepathically downloaded into the corpus callosum. The holomind perceiver activates radial consciousness, as opposed to binary/dualistic consciousness.

Use your Base Matrix Unit coordinates to locate the daily points of activation on the Holomind Perceiver. You can learn more about the Holomind Perceiver - including the complete Holomind Perceiver Index - at **lawoftime.org/synchronotron.** Further study can be found in the seven volumes of the *Cosmic History Chronicles.*

The Holomind Perceiver graphic is a diagram of the circuit board or holographic nano-chip of the new, evolving extrasensory organ, the seventh mental sphere of radial consciousness. The organization of this nano-chip is based precisely on the fractal of universal time, the 441 matrix. The Holomind Perceiver [HMP] is to be telepathically imprinted as an act of self-evolution. Its origin is in the beam codes of the Sirius Star Council in their activation of Earth's noosphere.

28. STAR TRAVELER'S CODE SHEET

You are a Star-Seed! Since time informs biology, and to in-form is to give form, when you arrived to this planet you became a unique embodiment of cosmic energies and frequencies. This interactive page is designed to serve as a complete blue-print/guide that will allow you to make conscious all the codes of Life, Time and Space present in your body according to the Synchronic Order.

This code-sheet is an extension of your Noospheric Passport (from page 22). You can fill in the blanks as you progress through your study and understanding of this new time science. Use pens and colors to add life and vibrancy to it! The more you imprint your creative genius on it, the more you will experience the magical effects of becoming a Galactic Citizen and a Time Wizard!! Have fun! and enjoy the process!

REMEMBER: *You are the living embodiment of time. Your Galactic Signature falls within one of the 13 days of a specific Wavespell. The first day of this Wavespell represents your Purpose, while the last one, represents your Transcendence. In this way each day of any Wavespell corresponds to each of the 13 main articulations of your body. Draw the Kin of YOUR Wavespell into the mirror of the future human.*

Crossing the Bridge of Time - by Red Queen

Everything happening has to do with the changing of time. Time is the evolution of consciousness. This blog creates a bridge of time as we undergo a collective frequency shift. Exploring the daily application of the synchronic codes of time as cosmic keys to transformation we enter into new worlds leading us into the exploration of time travel, teleportation and parallel realities. (For more about the synchronic codes of time see the works of Jose Arguelles/Valum Votan, or read *Time and the Technosphere).*

1320FREQUENCYSHIFT.WORDPRESS.COM

Just as the cybersphere connects us all through virtual reality, the purpose of CREST13 Centers is to create a telepathic network over the Earth to anchor galactic culture as a new living reality. The purpose of these centers is to provide a working model of sustainable communities living in harmony with nature while creatively exploring telepathic technologies through the synchronic order. Both CREST13 centers and 13:20 Peace Gardens are anchor points on earth for synchronized meditations, ceremonies and festivals.

uCHING

"How I became U"

The uChing is a discovery by Juryt Abma Blue Solar Night based on the 64 hexgrams of the *I Ching* and applicable to the codes of the Dreamspell, Law of Time and synchronic order. Utilizing binary logic, the uChing reveals a unique and elegant number code underlying the genetic code. *"This is U, a perfect mathemagical description of the logic of the genetic code in time!"*
