Introduction on 7:7:7:7 and Aura-Soma

I had first started writing about the relation of the Archangels of Aura-Soma and the Law of Time in the first two years of the Mystery of the Stone (2004-2006) observing the role they were having in pushing humanity through the passage from the AC (Aboriginal Continuity) plate to the CA (Cosmic Awareness) plate, through the Wavespell of the Yellow Magnetic Human they belonged to (from kin 94-to kin 104, from Archangel Michael to Archangel Chamael).

The shift happened on the day of Yellow Cosmic Seed –kin 104 - after the completion of the first 8 years of the 16 of the Cube of the Law (1997-2012), with the activation of the DNA memory circuits that are loaded into the Psi Bank, the galactic brain on earth. The Archangels moved us on to a new 8 years phase, in which after having established ourselves in “The Great Way of Conduct” as a continuation of aboriginal primal modes of being, perception and behaviour, we were going to learn through Cosmic Awareness a new” Way of Wielding Power”.

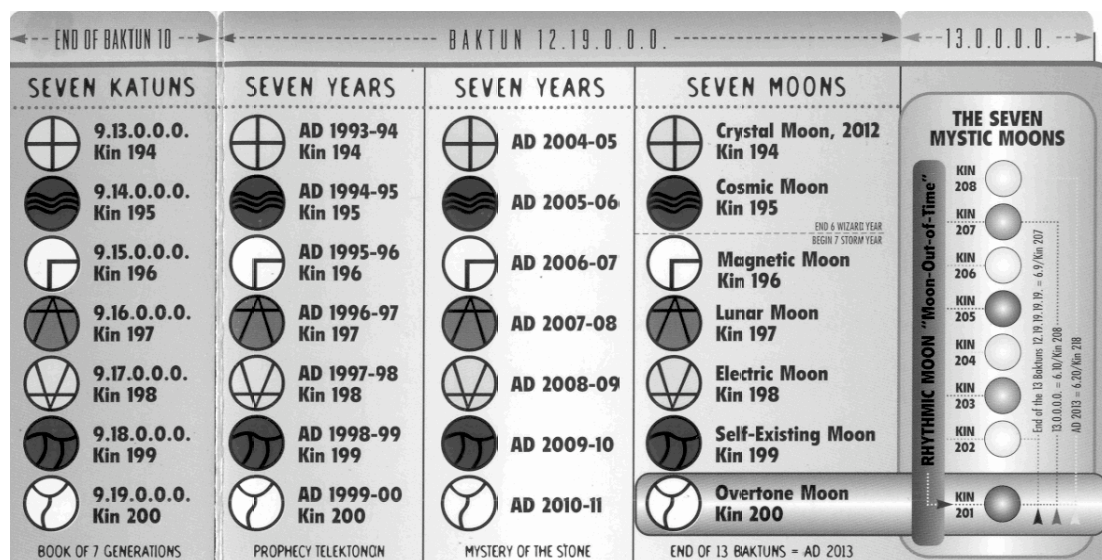

The wavespell of the Yellow Magnetic Human, kin 92, is the 8th wavespell of the Tzolkin and relates to the 8th year, the Blue Crystal Storm. The purpose of this wavespell is to remind us that we are the Experiment of Free Will in the Galaxy and as Human Beings we can choose to go beyond war and conflict with the support of all the love from above, the help of Chamael.

So kin 104 codes the Last Moon of Aboriginal Continuity and at the same time opens the Cosmic Awareness plate, being the energy of the first day of the New Year, Yellow Cosmic Seed, first year of the second 8 year phase.

As I began to go deeper in the study of the 7:7:7:7 by José Argüelles*, I realized that the Archangels of Aura-Soma were deeply related in this practice that in the 4 weeks of every moon fractally recapitulates the 7 Katuns of the 7 Lost Generations (AD 692/712), the 7 years of Prophecy (1993-1994/2000-2001), the 7 years of the Mystery of the Stone (2004-2005/ 2010-2011) and the last 7 Moons of the Closing of the Cycle at the end of the 13 Baktun, (21/12/ 2012) and the 7 Mystic Moons that occur before the Synchronization with the Galaxy (26/7/2013).

*7:7:7:7 Telektonon Revelation by Valum Votan, Interlink Production Limited, 1998

It was exciting for me to see how every week of the moon, with the help of the Archangels and the help of the 7 Radial Plasmas and what they code, we can move backward and forward in time, simultaneously present in different levels, redeeming and getting prepared for an appointment in time long awaited for.

Now that we are coming close to this appointment, kin 194 to kin 208 represent the codes of the last moons of the 208 moons of the 16 years of the Cube of the Law (1997-2012) that relate to the year 15-Eagle and the wavespell of the Night and the year 16-Warrior and the wavespell of the Warrior in the 20 Tables.(The 20 Tables of the Law of the Time 16 year Telektonon Cube of the Law by Valum Votan)

In the Aura-Soma system behind the sequence that goes from kin 194 White Crystal Wizard to kin 200, Yellow Overtone Sun, we can see the presence of Archangel Metatron, the Lord of Time and Michael, Gabriel, Raphael, Uriel, Sandalphon and Tzadchiel. So they are the ones that will accompany us to the end of time, the time experienced as a false mechanized frequency, the middle time of 12:60, to enter the inner time of 13:20, synchronizing with the Masters from El Morya to Saint Germain.

Each of these Seven Last Moons has a Cumulative Radion Value of 287 and represents the power of Magnetic Realization, kin 27 Blue Magnetic Hand (287-260) and of B27, Red/Green, Robin Hood for Aura-Soma, that incorporates and manifests this power in Malkuth, the Earth, in the Tree of Life.

Then the Moon Out of Time will follow, kin 201, Red Rhythmic Dragon, that can be associated to Archangel Jophiel, and represents the return to the Garden of Eden, the Garden of the Second Creation, to Camelot, and it is the pause that prepares for the 7 Mystic Moons, the time we need to integrate the shift and fly into 2013.

The 7 Mystic Moons, from kin 202 White Resonant Wind, to kin 208, Yellow Cosmic Star, see the presence of the Archangels Metatron and Samael, Haniel, Chamael, Azreal, Raziel, Jeremiel, Zafchiel, that together with the Masters from Pallas Athenas to Maha Chohan, will be our guides in the movement to the fifth world, the 6th Sun.

Each of these Seven Mystic Moons has a Cumulative Radion Value of 288 and represents the power of the Lunar Elegance, kin 28 (288-260), Yellow Lunar Star and of B28, Green/Red, Maid Marion for Aura-Soma, that reflects this power in Yesod, the Moon, in the Tree of Life.

$288=144+144$ = the key of the unification of the 8 years of Aboriginal Continuity and 8 years of Cosmic Awareness and the Harmonic of Polar Light, the complete realization of the Planetary Consciousness as “Galactic Brain on the Earth”.

Vicki Wall used to speak of Robin Hood and Lady Marion as of “Mystery Bottles” and we can see now how Robin Hood brings us into the Mystery of the Closing of the Cycle and Maid Marion into the Mystery of the Opening of the New Cycle; the mystery of the unification of the male and female energy; the mystery of the Earth, the Moon and the alignment with the Sun and the Centre of the Galaxy on 26/7/2013 so beautifully represented in the central pillar of the Tree of Life

It is very elegant and beautiful that the codes from 194 to 208 repeat themselves with the value of one day from December 8 to December 22 2012, Cosmic Yellow Star, last day of the Yellow Castle when the Theft of Time occurred (3113 BC). We have the possibility in the Seven Mystic Moons, the time that separates us from the Synchronization with the Galaxy, to redeem the Theft of Time and enter Camelot, the Green Enchanted Castle of Merlin, and start crating as Wizards of the Earth.

It's also interesting to see that in this delicate moment of galactic pause that prepares us for the shift, that represents the recollection of the power of the 7 days of Creation, we have the first 8 Equilibrium of Aura-Soma to bring all the rescue we need to our physical and subtle bodies (most of them are Chakra Set Bottles), to heal Timeship Earth of all the trials she had to go through, all the poisons and bitterness (B7) and launch her with the help of Anubis (B8).

According to the prophecy of Pacal Votan, we are now deep within the MYSTIC ALTAR of the MYSTIC STONE, completing the realm of the TEL-EK-TON-ON of wisdom, the innermost quadrant of the 16-year Cube of the Law (1997–2013).

TELEKTONON refers to the earth spirit speaking tube of Pacal Votan, and is also a magical, mantric formula.

TEL is the Power of the Distant Seers

EK is the Power of the Starborn to Remember

TON is the Power of Sound to become Vision

ON is the 144,000 cubed within – a new cosmology commences, opening to the Noosphere.

According to the 20 Tablets of the Law of Time, this mantric formula vibrates through the four years of the Mystic Altar (2009 – 2013) as the intonation of the Hunab Ku, the final hyper-sound generated by the [5,125-year synchronization beam](#). It is this sound that provides the resonant quickening for the quantum shift of the rolling wave of [Harmonic Convergence 2012](#).

In the Aura-Soma system the Archangels have started to appear since 1995 and are accompanying us with love to the closing of the cycle of 5125 years of history, on 21st December 2012. They will also support us in the Galactic Pause that will occur before the Synchronization with the Centre of the Galaxy, on 26th July 2013 and the beginning of the pulsation of a new Galactic Wave.

It's synchronically beautiful and elegant that the numbers of the Equilibrium of the Archangels correspond to the codes of the 7 Last Moons of the 13 Baktuns of History (30th May - 12th December 2012), the Moon out of Time (13th December 2012 – 9th January 2013) and the 7 Mystic Moons (10th January 2013 - 24th July) when the foundations of a new Creation will be laid. In a fractal way they connect also to the 7 Books of the Lost Generations that followed the death of the Mayan King Pacal Votan (832-972 A.D). So the Archangels can also be seen as the Solar Witnesses that will reactivate the memory of that cycle of time of 140 years and will help us to connect to a Solar Consciousness and to move to the Aeon of the 6th sun.

It is also interesting that Vicky Wall's galactic energy White Electric Wizard kin 94, relates to the White Crystal Wizard Moon, the first of the Last 7 Moons before the ending of the Cycle and the connection with Metatron and Michael. She was also speaking of new Quintessences that would appear after those of the Masters. And after the 14 Quintessences (7 + 7) that relate to the Masters the Solar Logos opened the way to the Archangeloi.

It's a very exciting time...also the solar flares are very excited.. and we can close our own cycles aligning our awareness with something that is vaster and through the energy of the moons, of the Archangels and the Masters support our body of light and the body of light of the Earth.

We can get prepared for this appointment long waited for, connecting to the energy of each Moon with the colors of the Equilibrium of the Archangels and the Masters, the fragrances of the Archangeloi and the Quintessences, to bring balance to our Physical Body and our Body of Light and activate our gifts and potentials in order to enfold them in our life while we walk towards a New Creation.

In the Mayan cycles of time we are currently experiencing the closing cycles of time of The Seven Last Moons of the 13 Baktuns, which began on May 30th and will end on December 12th, 2012.

Archangel Ambriel was born during Kin 194, White Crystal Wizard Moon (30th May - 26th June) just before the Venus Transit and under the auspices of Archangels Metatron and Michael, to support us in this journey with his cosmic love.

From 13th December 2012 – 9th January 2013 we will be under the influence of the Moon Out of Time, Kin 201, red Rhythmic Dragon and the Archangels Metatron and Jophiel. The closing of the cycle will happen in this moon.

The Seven Mystic Moons to the Launching of Timeship Earth 2013 then follow, beginning January 10th and ending July 24th, 2013. This begins the new cycle of the new time that leads to the Synchronization with the Galaxy.

Working with the Archangels, the Masters and the Law of Time will support us in creating the vision for the new time in the Seven Mystic Moons, the galactic pause in which we will lay the foundations for a New Earth. They will be our guides and map our journey. This will be very

helpful for those who wish to work with that focus in the period of time leading up to July 26th, 2013.

“We are in a time of the Great Unknown enveloped by a beautiful and Divine Mystery. Within this Great Mystery it is helpful to have the guideposts of the synchronic order to help navigate the path on the earthly dimension. To follow the signs of synchronicity is to be guided back to the path of stars—the path of a New Time foretold and foreseen in another time.

Having overcome karmic inertia we will enter a condition of enlightened weightlessness. This is all that **Galactic Synchronization** will be able to bear — enlightened weightlessness, no karmic baggage. In this way the evolutionary leap beyond the Closing of the Cycle, becomes easy. Spiritual survival will open a new chapter in the evolution of life on our planet — and the galaxy itself”
