

812 DAYS

TO SOLAR CONSCIOUSNESS
THROUGH THE HEART OF OUR GREAT CENTRAL SUN

812 Days to Solar Consciousness Through the Heart of Our Great Central Sun

“Our duty is to wake people up to the fact that our evolution is stellar/solar – the planet body is a function of solar evolution.” —Valum Votan

Kin 28, Yellow Lunar Star, August 14 marks the completion of the 144 days of Star Remembrance that began on Kin 144 (March, 23, 2014).

Supreme shifts have occurred and much memory restored during these 144 days, fractal of a baktun cycle of 144,000 days. It is impossible to articulate all that is occurring.

As the gates of light are opening, we are being saturated with many signs and symbols. How we interpret these signs is in accordance to the clarity of our mind and its orientation according to the stage of our soul development. Developing discriminating awareness has never been so crucial for what is about to unfold.

Something entirely NEW is happening within us, within our planet, within the solar system, within the galaxy, within the universe and within the multiverse and Beyond. A NEW FREQUENCY is being emitted from the galactic center, unearthing all historical records and bringing them forth into the Light to meet the cosmic future. The artificial grid is collapsing at an accelerated rate, core beliefs are being shattered, mass disillusionment is occurring and during this 812-day cycle we will see unprecedented events unfolding. Our duty is to remain aligned with the Spirit and true to our Core Essence. It is not enough to mouth the words, we are being called to give our ALL to become the living embodiments of our Divine heritage. This is a Holy Time.

“Then the Earth will shine with the LIGHT of its Lord. The record will be proclaimed, and the prophets and witnesses will be brought forth. Everyone will then be judged equitably, without the least injustice.” Quran 39:69, 3969 = BMU 441.

We are being invited into the larger Galactic Community, but first we must shed every layer of acquired illusion. Only then can the long repressed unrequited cosmic LOVE come bursting forth through each of our hearts, lighting up all universes.

THE KEY AND THE DREAM

On the 136th day of this 144 day cycle, after 602 days of travel, I was given the Key for “housing the mystery” (Kin 20, 7 Sun). This was on the 69th anniversary of Hiroshima and 1 year after releasing Valum Votan’s ashes at the Pyramid of the Sun in Teotihuacan, Mexico where he had had his first vision in 1953.

Four days later, in the morning of Kin 24, I had a dream with Votan who transmitted images of the unfolding of world events. We had a lucid discussion about the 812-day program of Sirian rebirth that we had been engaged in at the time of his passing. Much information was transmitted (most of which was non-

conceptual), though he indicated about learning to “ascend” and “descend” simultaneously and now more than ever the importance of anchoring the new frequency to stabilize the dissonant energies on our planet.

Upon waking from the dream I reviewed the 144 days of Star Remembrance. Then I noted that it concludes on Kin 28, and of course the next day is Kin 29.

$$28 \times 29 = 812.$$

Then I counted 812 days and saw that it concludes on **Kin 60, Yellow Galactic Sun**, of 11 Storm year (Self-Existing 18/November 4, 2016).

$$29 + 60 = 89. \text{ Kin 89 is the signature of VV's passing}$$

$$60 - 29 = 31, \text{ Kin 31, Blue Overtone Monkey, was signature of his final birthday (January 24, 2011).}$$

Also note that the 89th day of the 13 Moon year is Self-Existing 5 (Oct. 22, 2010). This is the day that Valum Votan received the Galactic Spiral Density Wave (Kin 197). The key to these cycles was telepathic element 113, sign of Quetzalcoatl, Lord of the Dawn and this year's Day Out of Time: July 25, 2015.

One synchronicity after another began to reveal itself indicating the significance of this 812-day cycle. It has kept me awake for nearly two nights and it felt important to complete as much as possible by Cosmic Worldbringer, Kin 26, one of the 13 clear signs on the tomb lid of Pacal Votan and 8-12 on the Gregorian calendar.

Realizing that the many numbers and information might be baffling for those new to this, however if you print this out and follow along with your 13 Moon Almanac or calendar/synchronometer, with patience, all will become clear.

812-DAY CYCLE BEGINS RED ELECTRIC MOON/KIN 29/AUGUST 15, 2014

1.27.1.21

Bonding flow

I seal the process of universal water

With the electric tone of service

I am guided by the power of space

$$28 \times 29 = 812$$

$$116 \times 7 = 812$$

812 reversed is 218, signature of the opening of the tomb of Pacal Votan.

Kin 218 is Day Out of Time July 25, 2016.

In vigesimal 812 is written 2.0.12.

$$8 + 1 + 2 = 11$$

The 144 days that began on Kin 144 concludes on Kin 28 (Aug. 14, 2014).

28 backward is 82. The 82nd day of the 812-day cycle (that begins on Kin 29) is Kin 110, White Rhythmic Dog (Nov. 4, 2014), key to the divine feminine matrix (as Kin 107 is key to divine masculine in Holomind Perceiver codes).

This 812-day cycle concludes two years from this date, Self-Existing Moon 18 (Nov. 4, 2016). The final day of this cycle is Kin 60, Yellow Galactic Sun, birth signature of Pacal Votan from whose tomb all of this knowledge was derived. Pacal means “solar shield.” This day lands on the 102nd day of the Spectral Storm Year. Kin 102 is the liberation of Spirit and signature of Paramahansa Yogananda.

Self-Existing Moon 4 (Oct. 21) is a Key date to pay attention to, and more specifically Oct. 21, 4772 (see Chapter 13 [Book of the Cube](#)).

On page 133, on the section entitled “Jose Arguelles,” of the recently published (2009) book 2012 Mayan Prophecy, by David Douglas is the following passage:

“It is interesting that recent decodings of the hieroglyphs at Palenque, which are understood to have been made during the reign of Pacal the Great, refer to dates beyond the end of the Long Count calendar. On the Tablet of the Inscriptions at Palenque a date of 1.0.0.0.8 5 Lamat 1 Mol can be inferred – otherwise known as 21 October 4772 AD, almost 3000 years in the future. Perhaps we can deduce from this that Pacal himself believed that the end of the fifth age did not represent the end of time or of the Earth, and that his name would be still mentioned in the sixth age.”

Valum Votan writes: *“This is not just a random date, but as noted precisely 7 baktuns and eight days after 21/12/2012, and exactly 20 baktuns and 8 days after the beginning of the Cycle of history, 3113 BC.*

“If October 21 (Self-Existing Moon 4), 4772 is 1.0.0.0.8, then October 13, Electric Moon 24, would be the precise completion of the 20 baktun cycle begun on 13 August 3113 AD (Julian 3114).”

Here we pause to reflect. The codings are numerous.

Self-Existing Moon 4 or 4.4 (Gregorian Oct. 21) is the 88th day of the 13 Moon year/solar ring.

Kin 88 was the final day of Valum Votan’s earthly life.

This year, Electric Moon 24 (Oct. 13) lands on Kin 88. This day marks the 60th day of the 812 days of Sirian rebirth. This signifies a double infinity upgrade to the 11th octave.

Regarding the Oct. 13, 4772 date Valum Votan writes: *This is actually a revolutionary and stunning fact to consider. Also in the long count the date 1.0.0.0.0.8 is 5 Lamat, Kin 148 Yellow Overtone Star – that is the sign of the Arcturus Command, the sign of the Star Traveler. That also means the 20 baktun Long Count end date would be 10 Ahau – Yellow Planetary Sun, Kin 140, key number of the Telektonon Prophecy.*

On the Dreamspell, the 1.0.0.0.0.8 return date would be White Resonant Worldbridger 7 Cimi (one of the two lords of Xibalba in the Popul Vuh) and the end date of the 7-(and entire 20) baktun count, would be White Crystal Mirror, Kin 38. Note: The Crystal Mirror holds the round table of the Hand Wavespell, just as the end of the 13 baktun count it was Crystal Hand, that held the round table of the Warrior Wavespell.

Because of this information the future can now be recalled, and further meaning be given to the two sequences of cycles – 13 baktuns and 7 baktuns, the two key creation numbers of the Law of Time – 20 baktuns in all, signifying a cycle of totality, the establishment of the Dynasty of Earth.

BLUE SPECTRAL STORM YEAR (2016-2017)

Let's look again at this date 4.4 (Oct. 21) in this 812-day cycle. It is the:

68th day of the 812-day cycle in the **Solar Moon Year** (2014). (Kin 96)

433rd day of the 812-day cycle in the **Planetary Wizard Year** (2015). (Kin 201)

798th day of the 812-day cycle in the **Spectral Storm Year** (2016). (Kin 46)

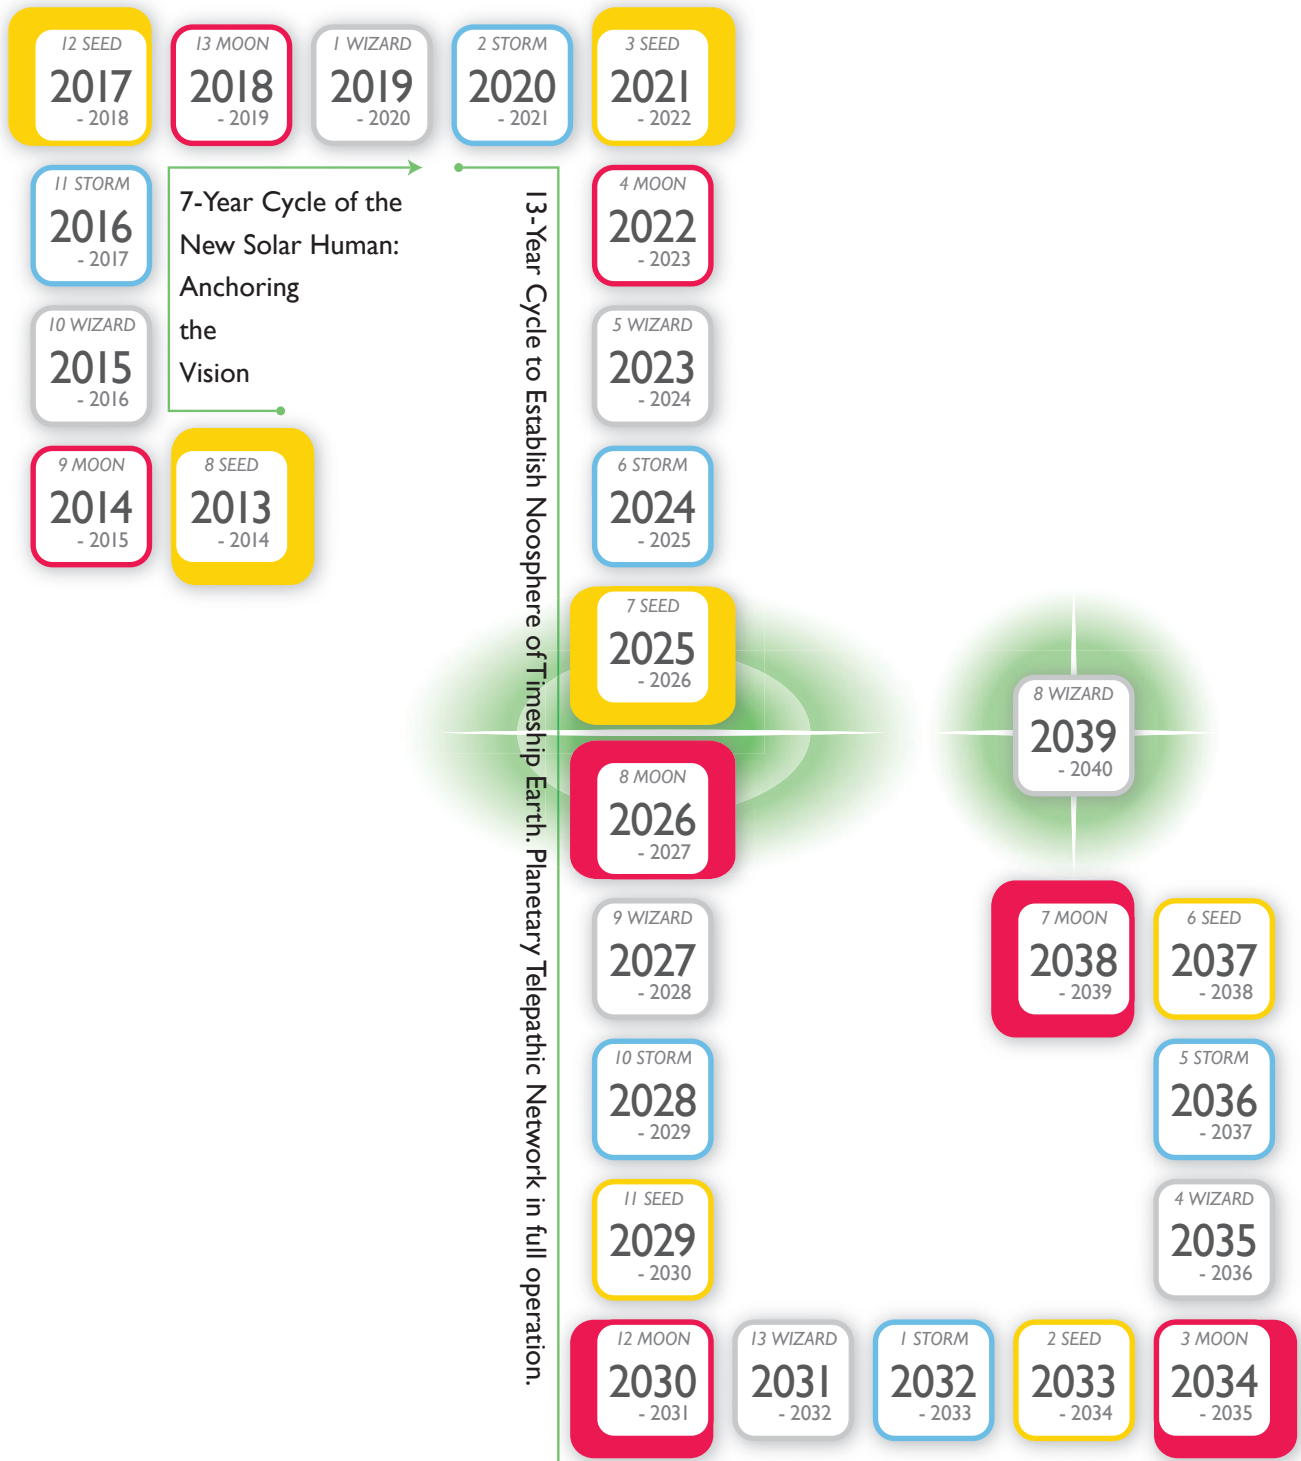

Pay special attention to the Spectral Storm Year.

Since the year-bearers run in 52-year cycles, the previous Spectral Storm year occurred in 1964, and before that 1912 (when the Titanic sunk). The next Spectral Storm year will be in 2068 and on every 52 years until 4772!

This Blue Spectral Storm Year is New Sirius Cycle 1.29 and begins the 53 52-year cycles or Sirian Wheels (2756 years total). This first Sirian Wheel is from 2016 – 2068. This establishes the First Galactic Dynasty of Timeship Earth. This time will see great advancement of telepathic technologies and mind capacities.

The Galactic knowledge and mission is rapidly accelerating on a parallel track to the unfoldment of world events and machine technology. These codes of time, and especially Synchronotron, rapidly accelerate the brain capacities, so that our mind begins to function like a matrix, mathematically ordered and experiencing multiple significances simultaneously.

Those who are inspired might keep a log for each 28-day cycle and share their synchronicities in relation to the unfoldment of world events that are sure to be mind-bending.

By 2032-2033 (Blue Magnetic Storm Year)
Psi Bank of Noosphere fully operative.

There are many, many treasures within this 812-day cycle of Solar Consciousness for YOU to discover. There are many secret doors to unlock and star gates to open.

“The more you get free of your conditionings, the sacred Lights will show you the way.”

Valum Votan writes (one of his final writings):

“Who but time’s special witness could lay the clue, decode it and then who but he could tell you:

*“Seven baktuns will there be following the end
Of the 13 baktun cycle of history
One baktun for each of the seven generations to unfold their long-rehearsed and ancient future history.
Within this seven baktun span less four years there will be exactly*

*“53 cycles of 52 years, the Sirian round of time, running from 2016, 11 Storm, to 4772, also an
11 Storm year, 2756 years in all for the Seven Dynasties of Timeship Earth to unfold their future
legacy.*

*“Then shall I return, time’s special witness, by Arcturus Star Command, on the eighth day after the
7th baktun – the completion of the 20 baktuns of the cycle of the transformation of the Earth, on
the 90th day following the completion of the 53rd solar galactic cycle, the cycle of Sirian rebirth in
time ... And then it will be understood what is meant by seven generations to come, seven baktuns
in all, 53 cycles of the Sirian Wheel of Time.*

*“It is my job – my duty – for all humanity to see and to define what lies beyond that threshold for the
next 2760 years – until my next return at that time as a star traveler from the distant future – that
is, until the year AD 4772 – exactly seven baktuns and eight days after 2012.*

*“Look: From 3113 BC to 353 BC, the end of the seventh Baktun of the Mind Teachings is exactly
2760 years, the same measure as 2012 to 4772, 2760 years, exactly seven baktuns after the closing
of the cycle – that is when I shall return.*

*“4772 = 7885 years after 3113 BC that is exactly 2,880,000 kin, the equivalent of 20 baktuns. In
vigesimal notation 20 baktuns, 144,000 x 20 kin, is written 1.0.0.0.0.”*

Background Information: The initial 812-day program of Radiance began on Kin 69, 4 Moon, Magnetic 16, 2 Wizard Year (Aug. 10, 2007). It completed on Kin 101, 10 Dragon, Self-Existing 14, 4 Seed Year (Oct. 31, 2009). This first 812-day program was oriented toward cultivating psychophysical radiance of the subtle body as a principle quality of the noosphere.

The next 812-day program of Sirian Rebirth began on Kin 102, 11 Wind, Self-Existing 15, 4 Seed Year (November 1, 2009 – Mevlana Day). For this cycle we were focused on the integration of the 441 Holomind Perceiver into conscious functioning for noogenesis through activation of the red and blue vulom force field circuits (method of synchronotron). The program would have taken us through to Resonant Moon 12, Kin 133, Red Electric Skywalker (which is the GUIDE for the Red Electric Moon, Kin 29 – the day that begins the current 812-day cycle to Solar Consciousness).
