## 1. Day Out of Time 2007, NS1.20.0.0.

### Kin 53, Red Magnetic Skywalker Sirian Rebirth of Quetzalcoatl A Meditation on the Frequency of Return

#### Day Out of Time—Transcend the Limits of your Thought

*“You cannot search and find the limits of your consciousness universe from the level of world consciousness. Transcend yourselves beyond your limits of thought.”*

— (Postulate 35, Clear Message about the Knowledge Book, *The Knowledge Book*, p. 267)

Day Out of Time, 2007. What are you going to do to celebrate and make the world a better place? What does the Day Out of Time mean to you? Let us review again the why and the wherefore of the Day Out of Time.

The global climate change is upon us. We are all changing and being changed. We follow the 13 Moon/28-day calendar because we believe this is the first step to make if we are to have a fundamental change in our way of life that will put us back in step with nature. Long ago, the League of Nations selected the 13-month 28-day calendar as the best means to make a change. That was back in the 1930s, and it had the support of the International Chamber of Commerce and entrepreneurs like Eastman Kodak. But conservative forces prevailed; the calendar didn't change, nor did the world. The big stumbling block was the Vatican's opposition to “Null day” the 365<sup>th</sup> day of the year, no day of the month or year at all. The real root of the opposition is this: By accepting the possibility of a null day, a Day Out of Time, we pass beyond the level of world consciousness and transcend beyond our limits of thought. Now that is a real change! This is the inherent power that comes from recognizing the Day Out of Time, the 365<sup>th</sup> day of the 13-Moon calendar year.

Since 1993, the 13-Moon/28-day calendar has made its come back—from Australia to Austria, from Israel to Brazil, from Chile to Croatia and in dozens of countries in between, the new calendar is spreading. And if there is one day of the 13 Moon year that draws people together, it is the Day Out of Time, annually celebrated on Gregorian July 25.

But there is more to it than meets the eye. The return of the 13-Moon/28-day harmonic standard is a function of the 2012 prophecy and a new knowledge base, the Law of Time and the revelation of the synchronic order of fourth-dimensional time. The Day Out of Time is the day when we are able to purify ourselves and experience the reality of fourth-dimensional time—and more—the “g-force,” the fifth-dimensional organizing power that synchronizes us with the radial matrix of the higher reality. In the Dreamspell, the Day Out of Time is also known as green day, green being the color of the fifth force. And of course, green day is also referred to as galactic freedom day.

As has been evident from the on-going revelations of this past Red Magnetic Moon year, the whole system of knowledge of the Law of Time is rooted in the power of the 52 (weeks per year, years per solar-galactic cycle). The value of the 52 derives from the Sirius Beta frequency in its rotation around Sirius Alpha. Indeed, the entirety of the Dreamspell/Law of Time is a benefit of the Higher Councils of Sirius. Knowing this has allowed us to elevate our perceptions and understanding. By following the codes of the 13-Moon/28-day synchronometer we can participate in the frequencies and mind streams of the Council of Sirius.

With these insights let us now look at this year's very special Day Out of Time.

## Red Magnetic Skywalker, Kin 53—Sirian Rebirth of Quetzalcoatl

Day Out of Time 2007. Red Magnetic Skywalker, Kin 53. One perfect Heptad of Sirius Beta complete, seven perfect castles of 52 days each, 52 perfect weeks of 7 days each—364 days in all. Then comes the 365<sup>th</sup> day, the Day Out of Time.  $52 \text{ (weeks)} + 1 = 53$ , the number of the frequency of Sirian rebirth. That is, 52, the frequency number of one cycle of Sirius, plus 1 day gives birth to the new, hence 53, the frequency of Sirian rebirth. Every Day Out of Time, being the 365<sup>th</sup> day of the year, is the  $52 \text{ (weeks)} + 1 = 53$  frequency of the Sirian rebirth, thus giving a further special significance to this annual Thirteen Moon festival day.

In this case, the  $52 + 1 = 53$ , the Day Out of Time, no day of the week or moon at all, also happens to be Kin 53, the galactic signature of the great prophet Quetzalcoatl, Ce Acatl Topiltzin (Our Lord One Reed). This is also the first day of the White Northern Castle of Crossing, the beginning of the eighth castle since last 13-Moon New Years day, Kin 209, first day of the Green Central Castle of Enchantment.

In vigesimal code, 53 is written 2.13 ( $2 \times 20 + 13$ ). You will note, that 2.13 is numerologically the same as decimal code 213 = Kin 213 Overtone Skywalker, the Day Out of Time exactly four years hence. As we mentioned in the last *Rinri Newsletter*, 213 is the Kin equivalent frequency of 2553, code number of the "Return of Quetzalcoatl"  $\{2553 - 2340(9 \times 260) = 213\}$ . (In vigesimal code, 213 is written 10.13).

This means that this year's Day Out of Time marks the commencement of a four-year cycle, 2007-2011. Not only are these last four years of the Mystery of the Stone soul journey through Middle Time, but they also commemorate the Sirian Rebirth and Return of Quetzalcoatl. Let us examine what this means.

First of all, note that it has been 20 years since the explosion of the supernova 1987A (Quetzalcoatl). This supernova was the means by which the higher-dimensional councils of universal unification "announced" the completion of the prophecy of Thirteen Heavens and Nine Hells, commemorated on August 16 and 17, 1987, by the Harmonic Convergence. This event officially began what is referred to as the Quetzalcoatl Project, a vast organized undertaking of the galactic masters' system of mind transmission, the GM108X. (See *20 Tablets of the Law of Time*). The Quetzalcoatl Project initially produced: the discovery of the Law of Time, inclusive of the 12:60 and 13:20 timing frequencies; the synchronic fourth-dimensional new time dispensation of the Dreamspell; the galactic interplanetary, fourth-dimensional mapping of time and consciousness, the Telektonon prophecy; and the Rinri Project.

Ten years after it first exploded, a further burst of energy of the Supernova in 1997 resulted in the 20 Tablets of the Law of Time, the Revelation of the Sixteen year Cube of the Law; the 7:7::7:7; the Mystery of the Stone; and the *Cosmic History Chronicles*. All of these detailed teachings of the synchronic order and the Law of Time—the Quetzalcoatl Project—are functions of a time released mind transmission beam emanated by the Supernova 1987A, the cosmic trigger of the Harmonic Convergence. For that event 144,000 rainbow sun dancers answered the call and were able to synchronize the psychic field or noosphere of the Earth with the 5200-tun/5125-year galactic synchronization beam responsible for the wave harmonic of history. It was the re-attunement to the galactic synchronization beam that fully activated the GM108X mind transmission stream, already focused though the messenger of the Harmonic Convergence, the Closer of the Cycle.

## Supernova Streams and Galactic Information Beams

*“The ejection of radiative thermic-luminic properties at supernova excitation is a correlate function of a higher meditation program of the Galactic Federation. This meditational program is coordinated by the pilot angel program of the intelligence originally evolved by the stellar mass on its trajectory becoming a supernova.”*

— *Dynamics of Time*, 18.1

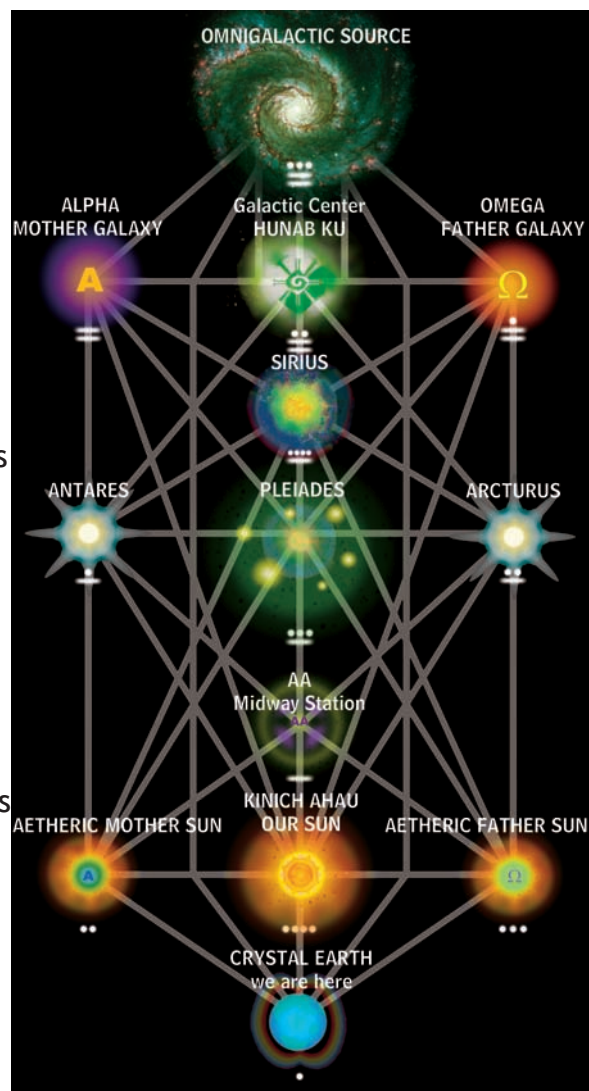

Synchronized with the information streams of Supernova 1987A, the GM108X mind transmission stream is a direct discharge from the Omnigalactic Source through the Hunab Ku (Galactic Center). The Hunab Ku is, of course, the source of the galactic synchronization beam through which Earth has been passing since BC 3113. The purpose of the beam is to place Earth in synchronization with the universal plan for cosmic unification. The peak point of the synchronization occurs in 2012, Dreamspell Kin 207. Following the Rhythmic “Moon out of time,” there is a seven moon entrainment in the beam that completes itself on Kin 164, Yellow Galactic Seed, 2013—just six years away.

Once the synchronization beam—a telepathically saturated high-energy plasma frequency beam—had been synchronized to the psi field of Earth and to Earth’s resonant frequency, many things began to happen: The quickening of the time of prophecy. In order to maintain a stream of consciousness focused on the higher 13:20 frequency of universal time, the GM108X mind transmission stream was reactivated and hence began the release of the synchronic codes of the Law of Time.

This GM108X transmission is the central focusing beam of the Quetzalcoatl Project. This Project originates from the star command base in the inter-dimensional system of Sirius, the first direct point of transmission from the Hunab Ku. In the *Mayan Inter-dimensional Star Map* there are three channels. The left channel is the Antares or Alpha channel, the sum numbers of its three points is 18 (Alpha Sun 2, Antares 6, Alpha Galaxy 10) and refers to the 18-dimensional universe system. On the right side, is the Arcturus or Omega channel, and the sum of its three points is 21, the defining factor of the 441 Cube, representing the creative activating power of  $7 \times 3$ . The central channel has 7 points, and its sum number is 52, the Sirius beta frequency. The Sirius system (9), is linked by an inter-dimensional circuit to the AA Midway Station (5), where information from the three channels is gathered and then transmitted to the Velatropa 24 (Kinich Ahau)(4) stellar unit. From there the channel opens directly to the Crystal Earth node, V.24.3 (1).

Between the Sirius system and the AA-Midway is the Pleiades (8). It is in the focalizing center of the central channel. This is because the Pleiades provides the unifying point for the solar 26,000-year rotation = 1 Platonic or solar year.

From the point of view of V24, the Pleiades is the harmonic axis providing a channel of inter-dimensional access. But the inter-dimensional information stream passes first through the Sirius system. This is because Sirius is the ninth-dimensional

locus for the coordination of the affairs of Hunab Ku and for connecting with information coordinates of other galactic systems. In this sense, the Pleiades is not a coordinating center, but a centralizing point of inter-dimensional transmission. The AA-Midway is the monitoring, correlating and record-keeping base of the Fifth Force.

As has become clear this past year, the present superconscious activation is the direct consequence of engagement with the “Sirius Council of Nine.” These are the archetypal form signatures whence emanate the Bolon Tiku, or “Nine Lords of Time and Destiny.”

As the Sirius Council is the highest coordinating level of order within this galaxy, it is the originating point of all of the spiritual information streams that have penetrated (and continue to penetrate) the dense mental environment of V24.3. The galactic masters, including all the great prophets, are frequency nodes within the Sirius system. Quetzalcoatl is one of these. Each of the galactic masters has a special function and purpose. That of Quetzalcoatl is subsumed under the principle of “Return.”

As a footnote to the foregoing reflections, note that on May 7, 2007 (Kin 234), NASA reported that late in 2006 its Chandra X-Ray Observatory detected the “Brightest Supernova Ever.” The story reads in part, “This was a truly monstrous explosion, a hundred times more energetic than a typical supernova...” Known as SN2006gy, the star that exploded was about 150 times larger than that of our sun—as large as a star can get. The fact that this supernova is located in the galaxy NGC 1260 (!), some 240 (= 20 x 12 = 2012) million light years away, tells us that this was indeed the sign of the 2012 closing of the cycle and of the end of the 12:60 order of reality on planet Earth. It was shortly after this supernova had been observed that the Sirius Beta transmissions began—a new stream of galactic information in anticipation of the 20<sup>th</sup> anniversary of the Harmonic Convergence, the occasion of supernova 1987A.

## Quetzalcoatl: A Meditation on the Frequency of Return

*“Learn and attain the information, not by asking, but by experiencing it.”*

— Postulate 36, *The Knowledge Book*, p.267

Return is a vibrational frequency.

What does it mean to experience a frequency of Return?

Here we are dealing with two numbers indicating Return: The first number is 24, the second is 53. In the I Ching, Codon 24 with one yang line on the bottom and five yin lines above it, refers to Return (= Radiant Return, *20 Tablets*). This is because the Yang line at the bottom moves upward and represents the seventh stage of increasing darkness, a return of the light. Things can only go in six stages. If darkness increases through six stages, then with the seventh stage, the yin turns into yang, the dark becomes the light. That is why it is said in the commentary to Codon 24, “On the seventh day there is Return.” By analogy, here the seventh day is the completion of the process of the seven days of creation. It is only when the seventh day comes that there is really a Return, represented by a new dawn or a winter solstice, when the days grow longer once again. (Note: On their first album, “Piper at the Gates of Dawn,” Pink Floyd’s legendary Syd Barrett put this reflection to verse in the song entitled, “Chapter 24”. (See: *Cosmic History Chronicles, Volume III, Book of the Mystery*, for in-depth analysis).

The six days of creation are crowned by the seventh, this is the day that God “takes to the Throne” and assumes all Authority. In the cosmology of the *Cosmic History Chronicles*, we are still in the very

final stages of the sixth day of creation and the seventh has not yet dawned—but soon it will. This is the meaning of the closing of the cycle and the launching of Timeship Earth 2013, the dawning of the seventh day of creation. God assuming the Throne means that only on the seventh day is everything set in order. This is coincident with the divine harmony that bursts forth when karmic error and its “evil” have finally exhausted themselves and are thwarted by a superior science and magic based on a new knowledge, the laws and codes of the synchronic order of the Law of Time.

## “Chapter 24”—On the Seventh Day Comes Return

The number 24 of the Codon for Return—one binary letter, radiance penetrating two space letters—is also the frequency of Velatropa 24. It is in Velatropa 24 star system where the return of the light and dawning of the seventh day of creation are meant to be experienced, for it is here that the free will experiment and the last judgment prophecies play out. Since it is the free will zone, humans cannot expect that the return will occur without their choosing for it to return. How is this return to occur? What is the choice that must be made? What else but to choose to return to natural time? Once the choice is made, Return becomes a dimensional shift.

This is why Return may also be understood as the self-existing form of the cube,  $4 \times 6$ —six sides foursquare. Hence, this number—24—is also the frequency of the super conscious plane of mind, the super conscious power of four experienced on the first day of the Telektonon Heaven Walk, day 24. Within this frequency of return, 24, six sides of the cube foursquare, we also find the measure of three octaves: beginning, middle and end. Within these octaves is the lost chord as the interval of lost time, finally resolved as the form-giving power of four. When this form-giving power of 4 is added to the frequency of Return, 24, the sum is 28— the interval of creation produced by the lost time (7) multiplied by the same form-giving power of 4. As the frequency of the cosmic harmonic standard, the measure of the 13-moon-28 day synchronometer. The number  $28 - 24 + 4 = 7 \times 4$ —returns us to the frequency of Sirius Beta.

The Sirius Beta harmonic formulation of the frequency of return is:

$13 \times 28 = 52 \times 7$ , while  $24 (6 \times 4) (\text{Return}) + 28 (7 \times 4) = 52$ . The Sirius Beta frequency of 52 is a ninth-dimensional signal, the Sirian analogue to the super conscious power of 24. Also being a power of 4, 52 represents a type of stasis, that of cosmic time,  $13 \times 4$ . But  $52 + 1 = 53$  or Return at the Quetzalcoatl level of higher consciousness.

So then we have the formulation  $52:53::28:29$ . The Sirius Beta harmonic,  $52 + 1 = 53$ , the Sirius rebirth constant, just as the cosmic harmonic standard,  $28 + 1 = 29$  the cosmic constant.

As the cosmic constant, 29 is the 11<sup>th</sup> prime in the sequence of prime numbers, while 53 Sirian rebirth, is the 17<sup>th</sup> prime. All numbers have meaning and talk. 17 is the frequency of navigation; 11 is the formless mystic form-creating center.  $17 (53) + 11(29) = 28$ , the cosmic harmonic standard, while  $53 + 29 = 82$ , or 41, the frequency of the interval of God, times 2. Meditate on the numbers. Let the numbers meditate you.

### V.24.3, It's a Telepathic Frequency as Well

Such is some of the meaning of the frequency of Return, which occurs as the Day Out of Time, the most sacred day of Quetzalcoatl. In its Sirian purity the Quetzalcoatl rebirth—Kin 53—occurs but once every 52 years as the synchronizing medium of the Day Out of Time. Yet, by his galactic signature, Quetzalcoatl is also the frequency of the cosmic constant of Sirian rebirth, 53. As already noted,

this frequency occurs on V.24.3 every Day Out of Time. Let us continue riding the numbers and their telepathic language.

V.24.3 = decimal 243, same as Kin 243 Blue Solar Night; that is tone 9, seal 3 and  $3 \times 9 = 27$  “heart of nine.” In the ancient meaning Valum signifies 9, while Votan is the earliest variant name of the Akbal (Night) glyph, which is why Valum Votan signifies Heart of Nine. Kin number 243 then is the frequency of the heart of nine:  $243 = 27 \times 9$ , or nine squared  $\times 3$ . In vigesimal code 243 is written 12.3 ( $20 \times 12 + 3$ ). In decimal code  $123 = \text{kin } 123$ , Blue Rhythmic Night, galactic signature of the day the jade mask of Pacal Votan was revealed, November 27, 1952. As a frequency,  $123 = 41$ , interval of God  $\times 3$ . Three is the root of nine, while  $123 \times 9 = 1107$ , or  $41 \times 27$ . This number, 1107 ( $41 \times 27$ ) the interval of God (41) moved by the Heart of Nine (27), is the “restorative cube frequency of the Return of Quetzalcoatl” as revealed to Valum Votan.

Sirian rebirth is the resurrection in time guaranteed to those who are capable of living within themselves the purity of the 13:20 frequency of universal cosmic synchronization. The Day Out of Time is the day sacred to this cosmic constant of Sirian rebirth. The meaning of universal forgiveness is that we are able to purify ourselves of 12:60 conditioned prejudices and biases and forgive all and everybody, and thus prepare ourselves as a vessel of the Return of Quetzalcoatl.

“I shall return as a frequency, and by my frequency shall you know me!”

## 2. Magic Flight of Quetzalcoatl: From the Dragon Genesis to the Monkey Genesis, A Spiral through Time and Consciousness

THEN ARRIVED MIRROR CASTING ITS PERFECT WAVESPELL OF ENDLESSNESS, AND IN THE SHIMMERING WHITE GATE OF THE COSMIC DOG, THE THIRTEENTH STEP OF THE MIRROR WAVESPELL, THE DRAGON GENESIS COMPLETED ITSELF.

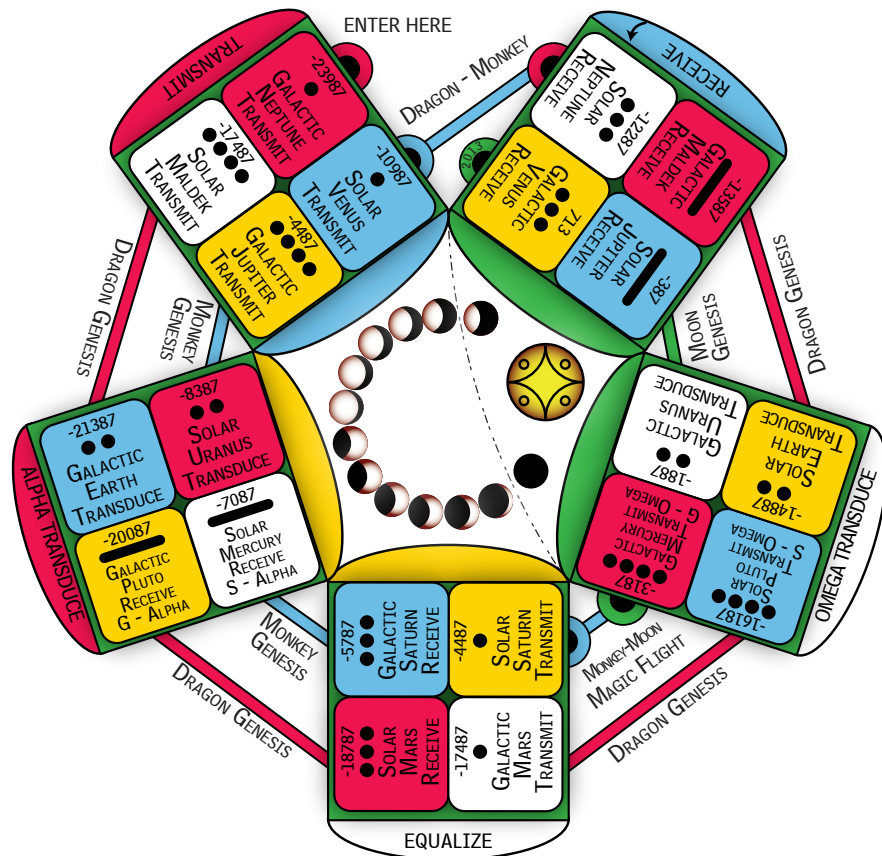

In the sixteen-year script of the *20 Tablets of the Law of Time*, Cosmic Moon 28, Kin 52, Yellow Cosmic Human, is not only the last day of the Red Magnetic Moon year and of the Red Castle of Turning, but also of the Code Kin 130, Moon of the White Cosmic Dog. By fractal time compression, this Moon concludes the last Dreamspell century of the Dragon Genesis, the end of the tenth wavespell, Mirror-Endlessness. Magnetic Moon 1, Kin 54, White Lunar Wizard, initiates the Moon of the Blue Magnetic Monkey Code Kin 131, that marks the beginning of the 7800 year Monkey Genesis. The second of the three Dreamspell Geneses is fractally compressed as the six wavespells—78 kin, one kin per moon, the equivalent of 100 years each—that mark the six years, 78 moons, between 2007 and 2013, the launching of Timeship Earth 2013.

The inter-dimensional time-traveling significance of the Kin 53, Day Out of Time, becomes magnified when one considers the meaning of the end of the Dragon Genesis and the beginning of the Monkey Genesis. In fact, this Day Out of Time is as momentous as any yet celebrated. For here we are taking a magic flight that links two Dreamspells—the Dreamspell of the Dragon Genesis and that of the Monkey Genesis.

THERE IN THE MIDDLE OF THE CASTLE OF BURNING, THE POWER OF MAGIC STRUCK WITH A THUNDEROUS FORCE. ONE HUNDRED THIRTY STEPS, ONE HUNDRED THIRTY DREAMSPELL CENTURIES, THIRTEEN THOUSAND EARTH YEARS HAD PASSED. SHATTERED AND GONE WAS THE PRIMAL DRAGON GENESIS. ARISING JUST AS SUDDENLY WAS THE MATRIX DREAMSPELL OF MAGIC. SIX WAVESPELLS, SEVENTY-EIGHT STEPS, SEVENTY-EIGHT DREAMSPELL CENTURIES OF THE MONKEY GENESIS.

If we look at the *Dreamspell Genesis* map on the Dreamspell Journey Board, we can begin to appreciate the significance of this magic flight. For ten wavespells 13,000 Dreamspell years, 130 Dreamspell centuries from -23987 to -10987, the Dragon Genesis has been fractaled down to the ten-year, 130-moon cycle between July 26, 1997 and July 24, 2007. On the Dreamspell Genesis map, we have journeyed the sequence of ten outer wavespell positions. You can see that from the white Solar Neptune Receive position there is a blue tube extending to the Blue Solar Venus Transmit position. This tube takes us across a time space continuum that defines a break in consciousness—a dreamspell shattering—and the initiation of a new cycle of consciousness—another dreamspell. Now we are on the inside wavespell track.

## DREAMSPELL GENESIS

“Start me up!” sang the Blue Magnetic Monkey; and so the next Dreamspell began.

GONE WAS THE ICE AGE EQUIPPED WITH THE POWER OF TEN WAVESPELLS, THE PLANETARY KIN OPENED THE GATES TO THE ELEVENTH WAVESPELL OF MAGIC AND INAUGURATED THE MONKEY GENESIS. THROUGH THE THIRTEEN STEPS OF THE MONKEY WAVESPELL, THE KIN OF TIMESHIP EARTH LEARNED THE WEAVING OF THE THIRTEEN MOONS THAT CREATE THE DREAMSPELL GARDEN ...

As you gather in your Dreamspell circles this Day Out of Time, meditate well on the meaning of the foregoing passage with regard to the goals of the coming year. See if you can call the Mystic Gardner back to the garden and for thirteen moons weave anew the vision of the Magic Garden Earth. Across the length and breadth of Timeship Earth on the magic flight of Quetzalcoatl’s promised return, spiral through time and consciousness to the next Genesis, if you can. See what kind of Earth we might have by the Monkey Genesis’ conclusion in 2013, when the final genesis is set to occur, the Moon Genesis. Since this year has been the same Kin 209 that initiates the Moon Genesis, perhaps the influx of Sirian information has been a foretaste of the expanded knowledge base we will be given once we have passed through the Cosmic Moon of 2013, the Kin 208 Cosmic Star Moon. For surely awaiting us then will be Galactic Synchronization and the emergence of homo noosphericus. Until then, we have 78 moons to grow the magic garden consciousness, to remember the lost time, and to restore the lost time magic back to Earth.

And it all begins with the arrival of the White Lunar Wizard, Kin 54.

### 3. Mystic Gardener's Meditation: White Lunar Wizard, Kin 54

White Lunar Wizard Kin 54—2007-2008  
Red Skywalker Wavespell of Prophecy

I polarize in order to enchant  
Stabilizing Receptivity  
I seal the output of timelessness  
With the lunar tone of challenge  
I am guided by the power of death

The White Lunar Wizard prepares us for the catalytic time between the three years of the Sensory quantum of Middle Time, and the last three years of the Telepathic quantum, thus completing the seven years of the creation of the Heptagonon of Mind of Earth. This is the year of Initiation. For those who can rise to the occasion, the higher magic awaits them.

Here is what is written of the coming year in the “Index of the Seven Stages of the Perfection of the Human Soul,” *Mystery of the Stone*.

Stage 4. 2007-08: White Lunar Wizard Year.  
Perfection of the meaning of darkness and dreaming.  
Symbol, the Night. Cultivation of the Power of Vision.  
4<sup>th</sup> Bolontiku. Black Iron Garuda Crest. Realizing the dream body as the basis of higher magic.

This gives us a clue to the deeper meaning of the White Lunar Wizard. When the Monkey Genesis begins, the White Lunar Wizard is the first to awaken in the new Dreamspell. His vigesimal code is 2.14 (2 x 20 plus 14 = 54). Note that in decimal  $2.14 = 214$ , 214 is the frequency of the equivalent kin 214, White Rhythmic Wizard, who shows up four years hence, the Day after Quetzalcoatl's Magical Return on Kin 213, in the year 2011. This means that the White Lunar Wizard also announces a four-year cycle to be completed by the arrival of the White Rhythmic Wizard, the first day of the first year of the two-year UR cycle (2011-2013), following the completion of the *Mystery of the Stone*.

Following the investiture of sacred power accorded to Quetzalcoatl, Kin 53, the White Lunar Wizard arrives with the power of  $9-54 = 9 \times 6$ ,  $3 \times 18$  or  $27 \times 2$ . It is this power of nine that marks the coming thirteen moons with the seal of destiny. By the time the Lunar Wizard departs, there will only be four-and one half years to Rhythmic Solstice, 2012. The “time to hesitate is through.” This is the time to exert in the Lunar Earth Wizard magic for the redemption of the Earth and the restoration of the time knowledge of the Monkey genesis and of the lost planets. Because it knows the ways of the Mystic Gardener, Lunar Earth Wizard knows how the weaving of the 13 Moons returns the garden back to Earth.

#### The Mystic Gardner Never Changes Key

The mystic gardener contemplates the Earth and in the depths of non-conceptual contemplation feels the resonance of the world systems. He knows before he talks, so you rarely hear him say anything, but when he speaks, even the winds stop to listen. He feels the whole of existence before he acts, so he does little but when he does, mountains are moved.

When you hear his song you know that you have heard it before, and have always been waiting to

hear it again. His knowledge is number, so you can only communicate with him by telepathy. Here is a transcript of what he says about himself:

White Lunar Wizard is the mystic gardener's name. 54 is his frequency, the number of his Kin = 27 "heart of nine"  $\times 2 = 18$  for the dimensions of existence  $\times 3$ ; or 9 the power of destiny  $\times 6$ , the sides of the cube. These are my standards and the form of my house. 54 again is 5, the fifth force, added to 4, the power of form, which equals my essence, 9, for from the ninth dimension am I sprung, and from Sirius have I come.

54, my frequency doubled = 108 frequency of the Galactic Mayan mind transmission, that is the form of the Heart of Nine,  $27 \times 4$ . Or the 18 dimensions of the universe whole multiplied by the sides of the cube, 6.

Or again, 108 is the fourth power of nine, 36, which is six squared,  $\times 3$ , the activator. 108 is the frequency of the star transmissions, the shield of Arcturus.  $9 \times 12 = 108$ , as well, for that is the number of the temple (12) of destiny (9). When I till my soil, when I bury my compost, when I grow my greens, it is the number of return that recycles my mind.

$54 \times 13$ , the number of my frequency, multiplied by the number of moons in the annual cycle = 702. That is the same as  $78 \times 9$ , the frequency of the tomb of Pacal Votan times the number of the Lords of Time, for the Wavespell of Prophecy is where my garden is cultivated. Here there is no dust of toxic chemical nor pollution of mind, only the frequency of transcendence, for Lunar World Bridger is my guide, the key clear sign to the prophecy of Pacal Votan. I carry the mark of Maldek in my seal, number 14, and the Martian redemption is my crown. When the World-Bridger seal 6 is added to my 14, we are 20, the number of totality. We are the sign of the transcendent regeneration of the End, for hidden beneath my form is the occult power of the Crystal Hand, the seal of 2012, Kin 207 ( $9 \times 23$ ), the frequency of the solar cycle (23) times the number (9) of the Lords of Time and Destiny. Be ready, another race is coming. Some will be chosen for the mystic garden, while others will be transported. I am the mystic gardener; my job is to keep the garden well. The flowers are brilliant on the wall, the tomatoes are heavy and ripe for the eating. I have no other job, but to weave the mystic garden with the power of the thirteen moons.

702 (13 moons  $\times 54$ ), multiplied by 4, the power of cosmic form = 2808. Study this number well. Divided by 13,  $2808 = 216 = 6 \times 6 \times 6 = 54 \times 4$ . This is the sixth-dimensional cipher that opens the constant of light. It is an invariable among the angelic orders whose physics only expands the number of the dimensions of time.

Yet there is more.  $2808 = 108 \times 26$ , fractal of the Harmonic Module of  $260 = 54 \times 52$ , frequency of the Lunar Wizard multiplied by the Sirian Beta code. The Galactic Mayan mind transmission occurs in two hemicycles of 2808 frequencies each =  $5616 = 108 \times 52$ , the number of the GM108X factored by the Sirius Beta code, the same as  $104 \times 54$ , the Arcturus harmonic multiplied by the Lunar Wizard's frequency.

Divided by 8,  $2808 = 351$  octaves, or  $13 \times 27$ .  $351 \times 8 = 104 \times 27 = 2808$ . 104 is the frequency of the Arcturus harmonic ( $13 \times 8$ ). The song of the Mystic Gardener never changes key, but its octave range is infinite. Perfect harmony is in store. When the mystic garden is tilled and the soil prepared, the song of the mystic gardener can be heard. Pay attention and live your life with awareness and love. Purify your mind and body while you can. All you need to survive is the Mystic Garden, growing galactic greens to feed the whole land.

## 4. White Lunar Wizard Year Annual Read-out and Rune Codes

This year will be the most critical in the cycle of the Mystery of the Stone for catalyzing the stabilization of the new time and the unifying perceptions of the synchronic order. For those truly following the codes of the Law of Time, this year we begin to bridge from the sensory order of the third dimension to the telepathic order of the fourth dimension.

This means that we are catalyzing the evolutionary cycle of the planetary human in cosmic harmony in preparation for the noosphere. This is very clear from the Lunar Wizard Oracle whose occult power is Blue Crystal Hand—Rhythmic Moon Seli 9, 21/12, 2012.

In fact, in the Mystery of the Stone, this is the year of the two Earth's—the Lunar Hand (GK Earth), which is the antipode of the Lunar Earth (SP Uranus) this year's Heart Oracle, and the Crystal Earth, occult power of the Lunar Wizard. Being of the two-tone overtone pulsar, the guiding power of both Lunar Hand and Crystal Hand is the catalyzing Storm. Of course, in the final stage of this year's Bolontiku Mystery of the Stone Oracle, the 2012 Blue Crystal Hand takes its place at the root of root position in the Earth's core. This signifies that on the Day Out of Time—White Lunar Mirror—in order to fulfill the 2012 prophecy and assure a successful conclusion of the closing of the cycle, we must telepathically place this seal—12 Hand—GK Earth, hence Crystal Earth—in the Earth's crystal core. There it will gather cosmic power and energy until that radiant moment, no more than five years hence, when it will dawn spreading its spectral rays everywhere on the horizon of cycle's closing.

Contributing to the polarizing factor of this year are the planetary signifiers of the Oracle: Maldek is represented by both the annual kin (Wizard SP) and the Analog (Serpent GK). Galactic-Karmic Mars, the other lost planet, is represented by the Guide—Lunar World-bridger. This seal, you may recall, is the key to the thirteen clear signs on the tomb of Pacal Votan, being the only signature on the northern edge of the fabled sarcophagus lid. In addition, the Lunar Wizard is the second signature in the Martian Skywalker Wavspell. Lunar Seed, the antipode seal, represents GK Jupiter. In the Telektonon cosmology, Seed is one of the two key powers of the Tower of Babel, the challenging power of false spirituality. Thus, with the GK Earth, Crystal Hand, in the occult position, it is evident that we must attain a tremendous telepathic exertion and coherence to our thoughts, speech and actions this year—for there is much to be done and much to be overcome!

Finally, this year, being the eleventh in the sixteen-year Cube of the Law, means we have passed from the 13,000-year Dragon Genesis into the lost time of the 7800-year Monkey Genesis. This year spans the thirteen Dreamspell centuries from -10987 to -9687. In the *20 Tablets of the Law of Time*, this also means we are spending the year in the Monkey Magic Cube position of the great Telektonon, the first year in the Camelot Cycle. It is during this year that the Monkey Genesis is intended to anchor the magic of the Lunar Earth Wizards. This is accomplished by making externalizing intelligence the magic of our instinctual consciousness. This actually refers to acquiring an instinctual certainty in our behavior based on our knowledge of the lunar magic of the codes of the synchronic order.

Having entered into the catalytic realm that bridges the sensory world and the telepathic domain, we have also entered the Realm of the Fourth Lord of Time, Black Iron Garuda Crest—Guardian of the third power of nine, 27 (3 x 9). While 3 cubed is 27, “heart of nine,”  $27 \times 2 = 54$ , kin number of White Lunar Wizard. As the fourth Lord of the Ring to be awakened, Black Iron Garuda Crest represents the power of invincible determination—precisely what is needed to make the catalytic crossing through the center of the Earth to the telepathic domain of the last three years of the Mystery of the Stone. The Garuda is a mythic bird associated with later Hindu and Buddhist beliefs of India, Tibet and

Southeast Asia. The very image of the Garuda depicts an outrageous, fearless quality of character and being. This is exactly the quality required for cultivating the certainty—invincible determination and unequivocal conviction—necessary to assert the primacy of the Law of Time in establishing the telepathic order of the dawning noosphere.

## The Challenge of the Lunar Wizard—Create the CREST13

*“The cultivation of sensory teleportation through maintaining a projective geometry coordinated according to sets of time vector potentials, organized by a collective multiplicity of planetary stations or points establishes a continuing conscious field known as the telepathic matrix. The telepathic matrix is not created as an abstract function, but is the evolved necessity of the biosphere-noosphere transition.”*

— 9.3 Dynamics of Time

The Challenge of the Lunar Earth Wizards of the path of the Thirteen Moons in this third year of the of Way of Wielding Power is to “construct the domes of the senses,” that is, to establish the telepathic research centers, embodied as the CREST13 Project. The will of the Way of Wielding power must be flexed, for the other world, the 12:60, is dying, and our biosphere is mutating as a result of the heedlessness of human behavior that continues to geologically alter our environment. It is up to the Lunar Earth Wizards to create the telepathic safety net around the Earth to assure that the New Heaven and New Earth shall arise from the ashes of the old by 2012-13. To attain this end, take to heart this year’s Rinri Precept, “Material things come to those who make the best of them.” To acquire what we need, the correct laws of thought and manifestation must be practiced. But to practice these laws one must also be on a path of self-purification and liberation from personal ego fixations. No telepathy without transcendence of the Earthly persona! You certainly cannot be a Lunar Earth Wizard and bring along any of your hang-ups, negative self perceptions, unexamined habits and projections! Time to soar like a garuda, crested with and indomitable as black iron!

## UR Rune Codes, White Lunar Wizard Year

Red Eastern Quarter: Way of Wielding Power Shapes Space.  
Codon 19 Wizard’s Aspiration.

To wield true power one must become the simple fool seeking to become a wizard. The power of shaping space comes from emptying the space in which you ordinarily dwell, that is, debunking your heavy-laden consciousness of all its pet beliefs and becoming like an empty vessel, joyous and receptive. You are joyous because you are free to receive from the spiritually nourishing power of the higher dimensions. Then, whatever thought arises will have the power to shape the space in which it arises.

The Codon shows the Wizard’s Song, joy, the ocean below, while above it is the open way of the spacious Earth. The binary letter of space is between time and space, this is the Wizard’s aspiration. Joy comes from inner certainty, the two yang lines in the first two places of the Codon. The two receptive lines in the center are matched by the two receptive lines in the top two places. This signifies the great open way of the true wizards. They listen and reflect before ever acting, if ever they act at all! If they are given to action it is always in accord with the Great Way of Nature, and so are able to remain invisible to all except the invisible forces that guide them. This is the meaning of the way of wielding power shapes space. This is the essence of the Wizard’s Aspiration.

White Northern Quarter: Cosmic Awareness Empowers Space.  
Codon 27. Temple of Being.

Once the space has been shaped by the self-arising power of pristine thought, cosmic awareness dawns to empower the space. Cosmic awareness is the gift for maintaining a pure mind, a mind devoid of selfish preoccupation. Cosmic awareness empowers space as the Temple of Being. This temple is the arena of consciousness that opens to all levels and dimensions of reality. Though this space and consciousness exist all the time, to actually experience it as the empowered continuum of the reality in which you actually dwell requires exertion and discipline.

While the first quarter codon is the expression of the prime power of 19, the second quarter exemplifies the third power of nine, 27. As the Temple of Being, the structure of the third power of nine exhibits an interesting architecture of symmetry: A yang line at the bottom and top and four yin lines in between. The lower triplet is the seed thunder, the energy of being, which requires space for its forceful yang line to enter from below the horizon of consciousness. The upper triplet, is just the opposite, it is the Temple, the mountain gate where meditation is the only event. Between the arousing energy of the thunder and the temple gate on top of the mountain, is the broad space of cosmic awareness that defines the Temple of Being—the binary letter of space between radiance below and mind above. In this Temple, the arousing energy can be experienced as the root of telepathy. But to function, the Temple of Being must be swept clean. Since this temple is also your body it might be a good time to fast, clean out and change to a simpler style of body and mind. When cosmic awareness empowers space, then you'll find no rats, fast food, or impure thoughts within the magic temple of being, the Timeship of perfect harmony.

Third Western Quarter: Cosmic Order Enlightens Space.  
Codon 35. Mind Expanding.

Once the space of the Temple of Being—your own pure original essence -Has been empowered, then the self-existing cosmic order may appear to enlighten the space. This refers to the telepathic projection of the higher telepathic order of cosmic civilization. This cosmic order is magnetically attracted to the empowered space of those beings that have attained a pure mind, a free will of magical accord with Reality. Because this order is nothing sought but the inevitable accomplishment of the process of enlightenment, it becomes the enlightening factor of the space that attracts it. Here are the subliminal information units that establish the structure of a higher operating order of reality, the mind-expanding noosphere.

In the third quarter Codon 35, Mind Expanding—power of seven moved by the fifth force—the great open encoding way of Earth is now below and within, while above is the all-illuminating light of the sun, the crystal vision of the mind as it expands into the four quarters of cosmic reality. Now is the time to begin the action of constructing the domes of the senses as the manifestation of the cosmic order that enlightens space. In terms of the binary letters, mind is between space and mind—this is truly mind expanding. Only those actions that extend the mind into space as the enlightened reflection of the cosmic order will endure. Think carefully and construct the future, there is no better time than now to do this.

Yellow Southern Quarter: Principle of Dynamic Construction evolves Space.  
Codon 43 Indomitable.

We approach the hour when Black Iron Garuda Crest will become fully awakened. If we have

persevered in the work at uncovering our true essence, his power of invincible determination should be radiating from the solar ring into our core being. The catalytic tempo of preparing to live in the dimension of telepathy now translates the subliminal constructs of cosmic order into the principle of dynamic construction. This principle is the factor evolving space into a new order of reality. There is the sense of a tremendous creative energy surging through us. We know that we can—and that we will—accomplish the great work of engineering the noospheric field into the New Reality.

Codon 43, Indomitable, defines the power of decisiveness that renders space into the evolutionary medium of our future soul-growth. The lower triplet is the creative transmitting power of time, informing us with the primal knowledge of the hierarchical court of wisdom. This wisdom is that of making distinctions between what is appropriate and what is ineffectual so that everything we determine to accomplish occurs in synchronization with the time cosmically ordained for it to occur. Resolute in this mode of being, the upper triplet is, once again, the joyous wizard's song, the ocean that opens to the infinite. When our actions are endowed with a joyous temperament, like the garuda, we can soar outrageously beyond all of our self-imposed limitations. The binary letter time is between time below and energy above. This means that when we are synchronized by the time, the principle of dynamic construction can be released as the energy evolving the space of our enlightened cosmic awareness into actions that create the foundations of the future.

## 5. Coda: Harmonic Convergence 20—Awaken to Reality

“It was 20 years ago today that the band began to play.”

While it was the Galactic Wizard that ushered in the Harmonic Convergence inaugurating the New Sirius Cycle, it is the Lunar Wizard who oversees the 20<sup>th</sup> anniversary of this watershed event that opened the gates to the final cycle of the Time of Prophecy. Of course, the day after the White Lunar Wizard ushers in the new solar Ring, the Blue Electric Eagle shows up establishing the blue galactic spectrum, a 65-day cycle of transformation. It was the Blue Electric Eagle who greeted the dawn of August 16, 1987, and enlightened the 144,000 sun dancers with their missions for 2012.

Now, 20 years and 20 days later at the dawn of August 16—Magnetic 22—it will be the Blue Planetary Eagle that enters the silence of the 144,000 sun dancers in their pre-dawn meditation. Will you be one of them? Will you receive the transformative extension of the blue galactic spectrum in your heart? Will you awaken ever more deeply to reality and seize the day with the perfected vision of the New Time?

No one then could have imagined the cycle of transformation that was to set in after that cosmic moment 20 years ago—the galactic beam bath. What happened? The end of the Cold War and the first war on Iraq, the advent of the Internet, the evolution of the cybersphere and the usurpation of the human mind by virtual reality, the absolute triumph of money, 9/11 and the “war on terror,” global warming and the Bush dynasty's “New World Order”—not the world anyone really wanted to see. Now five years to go. How will the cycle end?

Don't you see, it really is up to you to wake up to reality? It is all a house of cards. The power of the imagination is entered by awakening from the Dreamspell of History and entering the reality of the Galactic Dreamspell. August 17, Magnetic 23, the Navigation Tower, is the day of the Yellow Spectral Warrior. Liberate your intelligence. Take back reality! TAKE BACK REALITY!!!

This Harmonic Convergence let's spend a couple of days off the Internet, and our cell phones and seriously practice telepathy. Let us make telepathic rings around the Earth uniting all hearts with

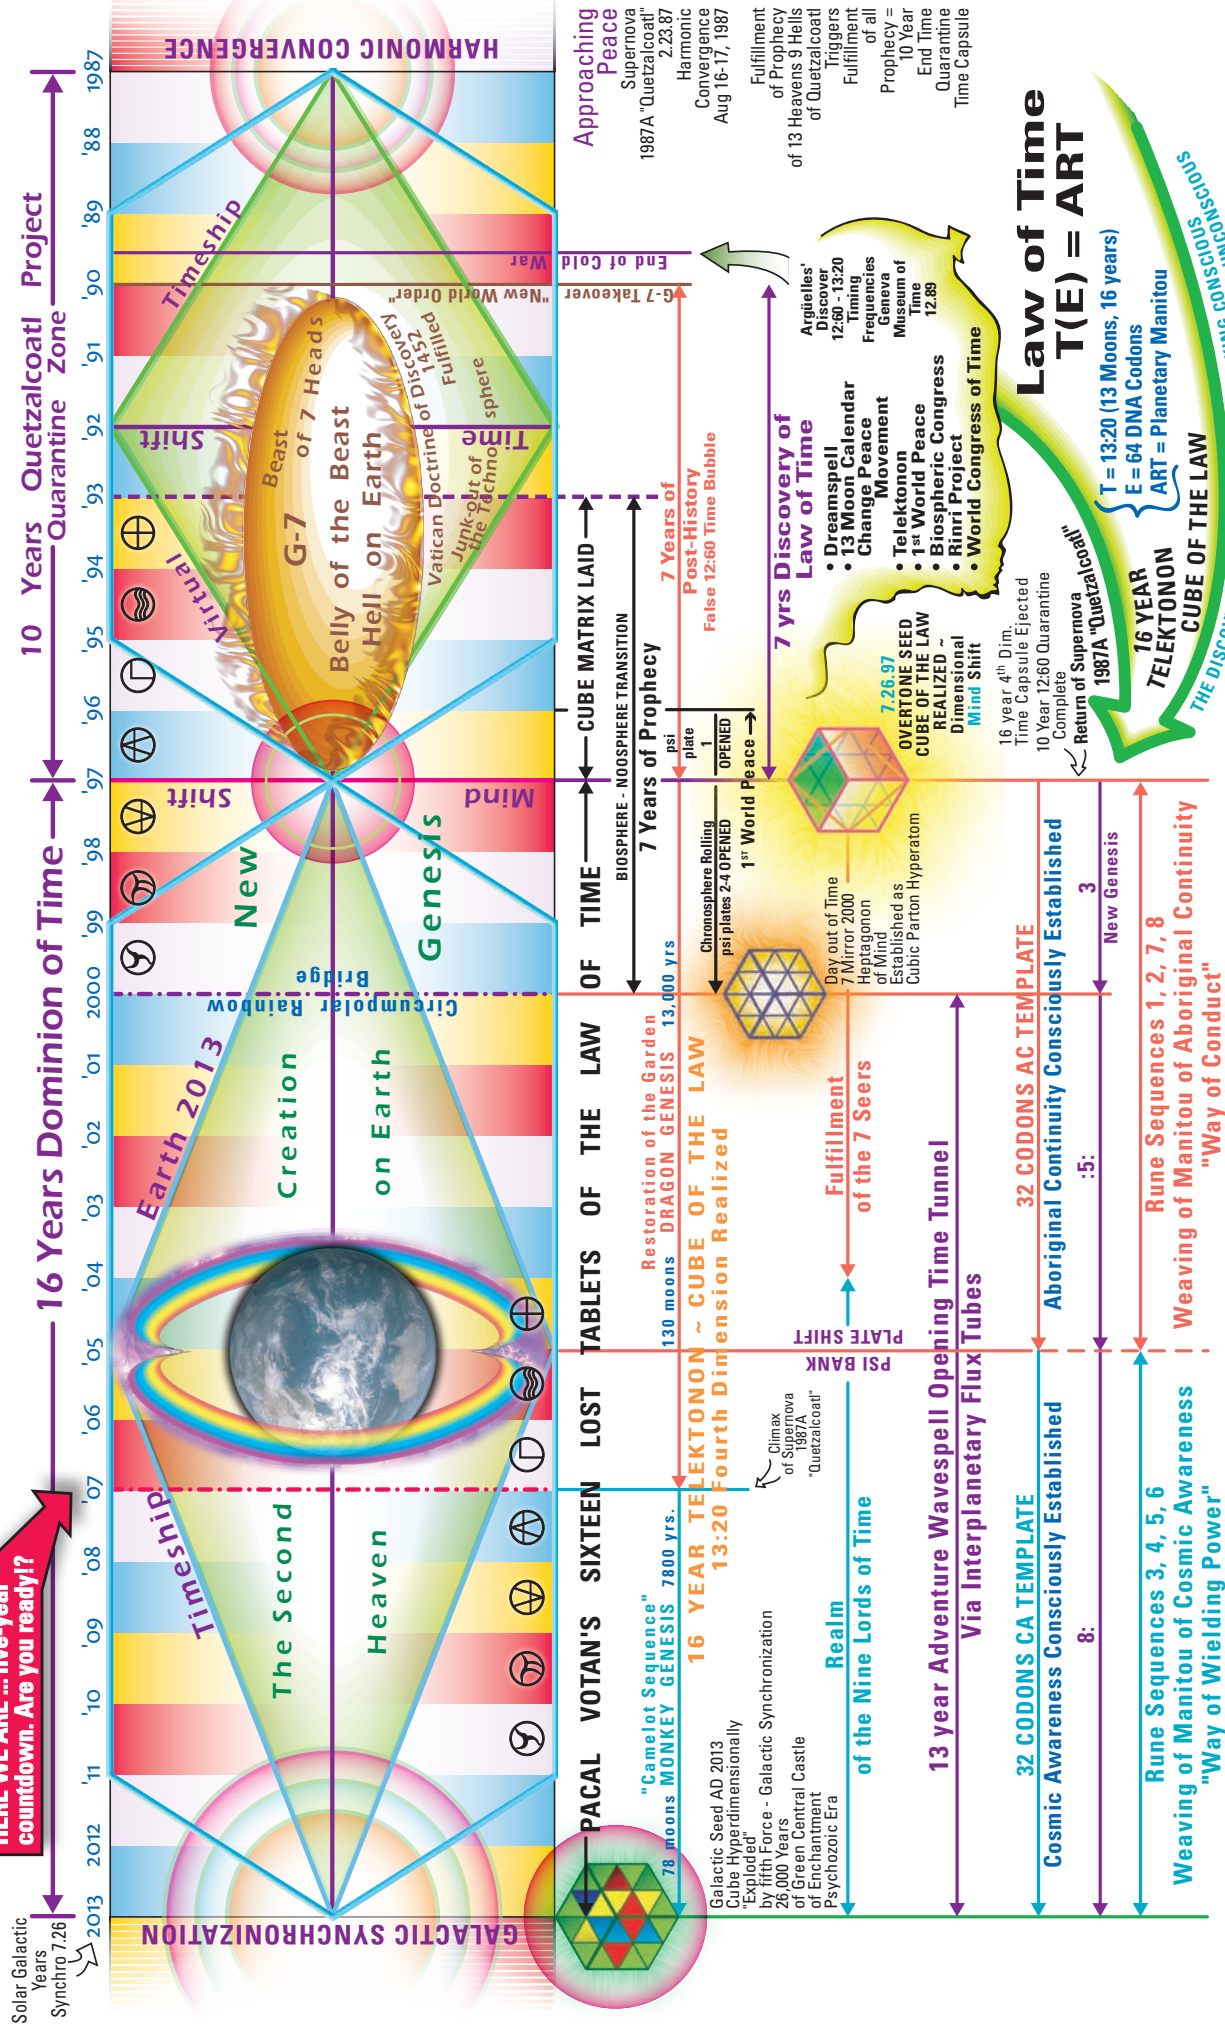

strands of telepathic love. Let us really put our hearts into it. Let us see how many clear messages we can send and receive. It is our God-given right to do this. It is the choice we need to exercise. Homo noosphericus is not made out of optic fibers or nano-chip technology. The system will soon be overloaded and collapse of its own weight. Virtual reality is a dinosaur of the 12:60 imagination.

This Harmonic Convergence organize telepathic picnics and sit in circles of silence at the dawn—and sit there all day long. Let song burst spontaneously from your heart. Place a rainbow round the Earth. Project the power of mind—“I perfect in order to create,” says the Planetary Eagle, “I dissolve in order to question,” says the Spectral Warrior.

Take Back Reality! Create the Mind from the nothing that it is! Experience God-consciousness unfiltered! Wherever you may be, be there not afraid!
